

**STANDARD EVENT AND
STUDIO WIFI - INCLUDED IN
SPACE RENTAL**

NUVO Network offers a 5 Mbps WiFi connection at no charge for guests to connect to while in the building. This network is shared building-wide, and speeds can fluctuate depending on how many users are connected simultaneously. If the internet is critical to the success of an event or production, an upgrade should be considered.

NUVO WIFI PACKAGES

GOLD STANDARD EVENT AND STUDIO WIFI

Offering five times the speed of the Standard Event and Production WiFi service, the Gold Standard WiFi provides a private wireless network with speeds up to 25Mbps. Independent from other networks in the building, this connection is not impeded by the activities of other people on-site, providing a fast and stable connection suitable for web browsing and email activities for up to 100 people.

Priced at \$100 connection rate + \$5 per user per day.

PLATINUM STANDARD EVENT AND STUDIO WIFI

Offering eight times the speed of the Standard Event and Production WiFi service, the Platinum Standard provides a private wireless network with speeds of up to 40Mbps. Independent from other networks in the building, this connection is not impeded by the activities of other people on-site, providing a fast and stable connection suitable for media streaming, mobile apps, and large-file downloads for up to 100 people.

Priced at \$100 connection rate + \$8 per user per day.

SPECIAL REQUIREMENTS CONNECTIONS

For events and studio shoots that have special requirements and customized solutions, including specialist equipment or hardwire connections, the following standardized rates are applied:

NUVO EVENT , CONFERENCE & STUDIO WIFI PACKAGES

	Price per unit (\$)
Setup Fee (per hour)	125
100Mbps Line Rental (per day)	150
Switch Rental (per day, if required)	15
Router Rental (per day, if required)	15
Public IP (if required)	20

A typical two-day studio session, with one day for set-up and testing, utilizing a single 100Mbps line providing 20Mbps to up to five internet-enabled devices would be quoted at \$360 + \$500 setup fee. A switch can be provided, if required, to facilitate the connection of multiple devices to the same network line. Similarly, if any custom routing between devices is required, router rental is available.
