How to sound *intelligent*

DIRECTIONS: The emperor thinks that using big words makes him sound *intelligent*... but he doesn't actually know what they mean! Can you do better?

Look up a few advanced words in Spanish. Practice pronouncing them, and write down their definition. Then, **write an example sentence** in **Spanish** that uses the word correctly. (Be sure to speak this phrase often, and loudly, so that everyone knows you're *intelligent*!)
