

Baltic Sea Region – 5G ecosystem forum

Peter Karlstromer
SVP EMEA Service Providers
September 27, 2018

Imagine a 5G future

IOT realized

3D Holograms

AR / VR

Self-driving cars/
autonomous drones

5G is different

1G – 4G

Connecting devices

Faster connectivity

One service for all

5G

Connecting everything

New experiences

Tailored to what you need

Infrastructure (R)evolution

Radio

Radio innovation / virtualization

Licensed / unlicensed spectrum

Open vRAN

IP networks

Simplification

Service levels

Network slicing

Cloud

Virtualization of services

Multi cloud

Distributed intelligence / low
latency

New flexible and open architectures

Some conversations we have

Endless possibilities

Learnings from trials and early implementations

Standards and open innovation

Incentives and stability to invest

Use cases today

Driving fundamental change in technology and ways of working
