Dear friend,

“

Did you know that 350,000 people live in the informal settlement of Kibera? At only one square mile, it's smaller than Central Park! As you may imagine, sustaining healthy lifestyles is difficult in this crowded area without access to proper healthcare, nutrition and education.

CFK is an organization committed to increasing access to lifesaving healthcare services and educational opportunities that lead to better social and economic futures for the people of Kibera. For these reasons, and many others, I am trying to raise \$1000 to help CFK continue in creating positive change that leads to brighter futures.

A brighter future looks different for different people. For some it may be putting food on the table to feed your family, for others, like Lencer, a brighter future is taking computer classes to ensure that she can move to a college level education, allowing her to better provide for her parents and daughter...

Will you join me in my goal to reach \$1000 to donate to Carolina for Kibera? Just click on this link [insert] to go to my campaign. Together, we can make change happen.

“Life was not as rosy as I imagined [between] the stress of the big city and the expectation of supporting a family back home. I had no job skills, therefore I had to settle for odd jobs. I learned of the CFK girls program which I felt identified with my challenges. In CFK's ICT center, I have been able to learn the basics in computer packages. Now, I look forward to advancing to a diploma level where I can specialize.” - Lencer

Pro-tip ▶ Share Your Why

Let your supporters know why you are so passionate about creating positive change leading to brighter futures..want some starters for social? Check out our examples below

“Imagine being expelled from school and kicked out of your home because of a positive pregnancy test...This is the reality for Juliebeth and hundreds of Kenyan girls like her who become pregnant in high school. CFK's programs allowed Juliebeth to find her brighter future and start taking classes while working to support her daughter. I'm raising \$1000 because I believe all young women like Juliebeth deserve to experience positive change that leads to brighter futures. Will you join me? I believe every person, regardless of their background should have the chance to find their #brighterfuture. For some people a brighter future is putting food on the table for their family, for others it's being able to finish highschool and pursue a college degree. The possibilities are endless. I've teamed up with CFK to raise money to create positive change that gives everyone the chance to find their brighter future.
