

SMART CONTRACTS FOR REAL-WORLD CONTRACTS

Smartract cross-links digitally signed, human readable documents with smart contract code, and automates the performance of contract terms by utilizing validators, oracles, and Helper Dapps.

FOUNDATIONAL PARTNER

IN 2018

Applied more than 100 million digital signatures to almost 50 million contracts

FULL PARTNER ECOSYSTEM

Represents one billion contracts across a broad range of industries

- Market for e-signatures only 5% penetrated
- Market for smart contracts estimated up to 5X larger

LAUNCH PROJECT

SOFTWARE PARTNER

Leading real estate transaction platform

PROCESSING VOLUME

80 million documents per year

LAUNCH CASE 1

Embed legal evidence into blockchain with reference to signed PDF and unique transaction information

LAUNCH CASE 2

Place encrypted payload of critical transaction data on blockchain with smart contract to decrypt when defined conditions are met

CONTRACTS **START** WITH THE SIGNATURE
