

SPECIFICATION SHEET

introducing the nuraphone

... a self-learning headphone that adapts to match to your hearing

KEY FEATURES

A self-learning engine

Automatically measures your hearing in about a minute by monitoring otoacoustic emissions (OAE)

inova™

Unique in-ear and over-ear revolutionary architecture, delivers bass you can feel, while maintaining crystal-clear detail

Splits melodic sounds to an in-ear speaker, and low-tones to an over-ear driver

Dual isolation

Does not let any noise in or leak any sound out

FrontRow™ immersion

Free companion app to create your perfect sound and set your level of immersion

TeslaFlow™

Music-activated cooling system

Touch Buttons

Configurable to play/pause/skip, answer/hang-up calls

In-built smart response

Automatic on/off

Powers off when you remove the nuraphone from your head to preserve the battery

Playback

At least 20 hours of listening during active use
