

Stage boundaries from International Committee on Stratigraphy ([stratigraphy.org](http://stratigraphy.org)).

Pmag from GSA, 2009 with C32/C33 boundary shifted to 73.5 after Fassett USGS pp. 1625-B, and Santonian Campanian boundary put at top of C34. C28r to C30n from Clyde et al., 2016.

Ammonite Range Zones from USGS OF 2006-1250, \* indicates radiometric date. See also [precisionstratigraphy.com](http://precisionstratigraphy.com) for boundary info.

The X Bentonite is pictured in Figure 4-4 of *Geologic Time* by Dan Eicher, 1968.
