

MEET MARCo– The Mentally Assistive Robotic Companion

MARCo is an interactive robot designed to improve the mental and emotional wellbeing of individuals with or without mental illness. There are two versions of MARCo: MARCo-Vanilla, a universal mental and emotional wellness device, and MARCo-Rx, intended for prescription use in assisting individuals with a chronic mental illness such as depression and general anxiety disorder (GAD). Both versions of MARCo versions offer constant companionship and support while also offering more therapeutic exercises including talk-support (derived from Cognitive Behavioral Therapy) and guided meditation. MARCo can also act on behalf of a caregiver, family member, or licensed practitioner by providing realtime updates of a patient's physical and emotional wellbeing and reaching out to emergency contacts in situations of suicide and self-harm.

Interactive touch screen

Facial emotion recognition camera

Natural Conversational abilities

Squeezeable stress foam body

Pulse sensor and stress sensors

MARCo eager to meet his next companion!

MARCo-Vanilla is intended for everyday use at businesses, schools, colleges, or in institutional applications as a general wellness device for those who may need a quick destress session or a quick "pick-me up". On the other hand, MARCo-Rx will be intended for assisting in the treatment of individuals battling with mental illness. Whether you are a licensed counselor, an individual suffering from a mental illness, or someone in need of emotional support or stress management, there is a MARCo for you!

WHO:

Founded by Jacob Boyle and Ryan Chiu, MARCo Technologies LLC is committed to encouraging widespread access to mental healthcare by the creation of a line of therapeutic robotic companions.

WHY:

Our founding partners have family members who suffer from severe mental illness. They know firsthand the daily struggles that families affected by mental illness go through. In addition, they understand that everyone has days where they may feel excess stress and anxiety. They are committed to creating cost-effective solutions to ensure that their loved ones, all that are affected by mental illness, and those who may be battling short-term stress and esteem issues, have the constant support they need.

WHAT:

At MARCo Technologies, LLC, our mission is simple: To improve the quality and accessibility of mental healthcare for all by introducing a line of compassionate robotic companions. With MARCo as our first product, we strive to bring it out to institutions, private counseling practices, and homes.
