Goals for Bicycle Master Plan Moves Forward

SAN DIEGO, CA (June 21, 2018) – The City of San Diego’s Environment Committee today unanimously approved a Strategic Implementation Plan (SIP) for the City’s Bicycle Master Plan (BMP), which was adopted by the City Council on December 9, 2013, and provides a broad vision, strategies, and actions for improvements to bicycling in San Diego.

The Plan will guide development and maintenance of San Diego’s bicycle network, including all roadways that bicyclists have a legal right to use and support facilities over the next 20 years.

Among the objectives in the Strategic Implementation Plan are:

- Increase Bicycle Mode Share in Transit Priority Areas to 6% by 2020 and 18% by 2035; consistent with the City’s Climate Action Plan
- Improve bicyclist safety by reducing crash rates City-wide
- Increase funding toward bicycle program
- Provide education to all road and transit users
- Improve City institutional collaboration on bicycle issues
- Evaluate bicycle program effectiveness

For specific information for each of these objectives and tasks, click [here](#).

“San Diego has what it takes to become a city where bicycles are used for everyday transportation, recreation, and general mobility,” said Alvarez, who has been leading the efforts for bicycle mobility and safety at the City.
