

Radiology+ Profile Sheet

Services: Premium, Artificial-Intelligence-focused, radiology-related solutions dedicated to sourcing (Rad staffing), recruiting (ad-hoc hires), and boosting (metrics)

Primary Markets Served: Hospitals, imaging centers, radiology groups, and other radiology-related businesses

Future-Proof: Radiology+ solutions help clients prepare for future influences, such as Artificial Intelligence

Sourcing Snippet: We offer hospitals and other radiology-related businesses radiology coverage for a contract term; notably, our sourcing and boosting solutions are offered as a package to sourcing clients, the cost of our boosting solution is much less when included with this package, and a boosting opt-out option is available

Recruiting Snippet: We focus on personnel who are forward-thinking and receptive to Artificial Intelligence

Boosting Snippet: We help boost radiology-related metrics, such as efficiency, quality, professionalism, and preparedness for the radiology of tomorrow; available with our sourcing solution or as a stand-alone option

Related Offering: Blue Perigee Sapphire is a unique innovation certification for individuals, businesses, and cities and it tells others that a brand is on the cutting-edge and prepared for the future

Why Partner With Us?: As a wide-spectrum innovation company, we're better at spotting hidden issues, better at creating convention-defying solutions, and better at redefining what's possible
