

Dr. Kelly
Burkenstock

SKIN • BODY • HEALTH

by meredith knight

“It’s amazing how one enhances the other—looking better leads to feeling great!”

Dr. Burkenstock does it again. Back from her current Anti-Aging studies in Germany, she’s ready to mesmerize your soul at her new Azure Spa located above her Skin-Body-Health clinic. The Azure Spa brings Europe to Mandeville and the Grand Opening is June 3, 2009. For Dr. Burkenstock, what began as a thriving medical practice has grown to include skin rejuvenation through chemical peels, lasers, Botox® and fillers, weight loss and body contouring via mesotherapy and endermologie with microcurrent sculpting, vein treatments and more.

“My Rejuvenation procedures empower clients to feel better about themselves. It’s amazing how one enhances the other—looking better leads to feeling great! With the Azure Spa we will captivate our clients with the Pride of the Profession imported German Massage Showers and separate French Vichy steam aromatherapy showers as well as European Massage and Body Wraps, to encompass the body in balance and harmony. Our relaxation suite is a work of art in itself.”

Dramatic changes are underway in the familiar mandarin-colored building at 2040 North Causeway Boulevard Dr. Kelly Burkenstock is offering the ultimate European Spa experience. Picture this... ascend the staircase and enter a European world of tranquility and relaxation. A romantic cascade of water trickles down an artisan wall. Aromatherapy floats in the air. Hand-gilded arches and Old World columns coupled with imported Italian chandeliers treat the eye.

Anyone who knows Dr. Kelly Burkenstock won’t be surprised by her latest masterpiece. “When you’re with Dr. Burkenstock it’s all about you,” patient Diane Renfroe shared. “She has a way of putting her patients at ease—with Doctor Burkenstock you feel as if you’re sitting in a friend’s kitchen having coffee. A luxurious spa for her clients just seems like something she’d do.” So pencil the Azure Spa into your June calendar for the ultimate experience in harmony for your body, mind and soul. Thanks once again, Dr. B.
