Skills

Development

I have experience with building websites with Html, Css, and Javascript. Lately I've been learning about Eleventy and React. Always eager to learn more about building products.

Component library

I have set up countless component libraries in Figma for our school projects, but also in the real world for freelance work.

Usability testing

I've tested my designs on usability with my target audience in almost all my projects, to ensure alignment with their goals and needs.

Project management

I've had the pleasure of trying out Notion for project management with multiple design teams, and even introduced it to the Strakzat team.

Creative sessions

During my studies, I've hosted multiple creative sessions with our target audience and/or stakeholders.

Work experience

Freelance

As a way to apply my learnings from the University, I decided to work as a freelance designer. Along the way I've mostly worked on marketing websites for a multitude of clients, but also a video projects.

Part-time — Freelance Digital Designer — February 2019 through September 2019

Strakzat

During my internship, I've worked alongside the design team on most of the client projects. This includes working with design systems, responsive design, micro-interactions and much more. Alongside this, I've also explored how they might use Notion to better document, which they later implemented.

Internship — Digital Design Intern — September 2019 through February 2020

Lightyear

After my internship I was eager to keep working, and luckily enough I was able to do so. I worked on many of the brand products, like pitchdecks, investor statements, website elements, etc. Unfortunately had to leave for my new internship at Strakzat.

Part-time — Junior Graphic Designer — February 2019 through September 2019

Lightyear

During my first intership I worked with the in-house design team on a multitude of projects. Mainly I've worked on the graphic design, while exploring the world of HMI design every once in a while.

Internship — Experience Design Intern — September 2018 through February 2019

Education

Rotterdam University of Applied Sciences

After my internship I was eager to keep working, and luckily enough I was able to do so. I worked on many of the brand products, like pitchdecks, investor statements, website elements, etc. Unfortunately had to leave for my new internship at Strakzat.

Communication and Multimedia Design — September 2015 through February 2022 (expected)

CSG Het Streek

During my internship, I've worked alongside the design team on most of the client projects. This includes working with design systems, responsive design, micro-interactions and much more. Alongside this, I've also explored how they might use Notion to better document, which they later implemented.

HAVO Technasium — September 2010 through July 2015
