PARTICIPANT	ANSWER
2	James
4	Nirja
5	Dipali Patwa
6	Sylvia Capeluto

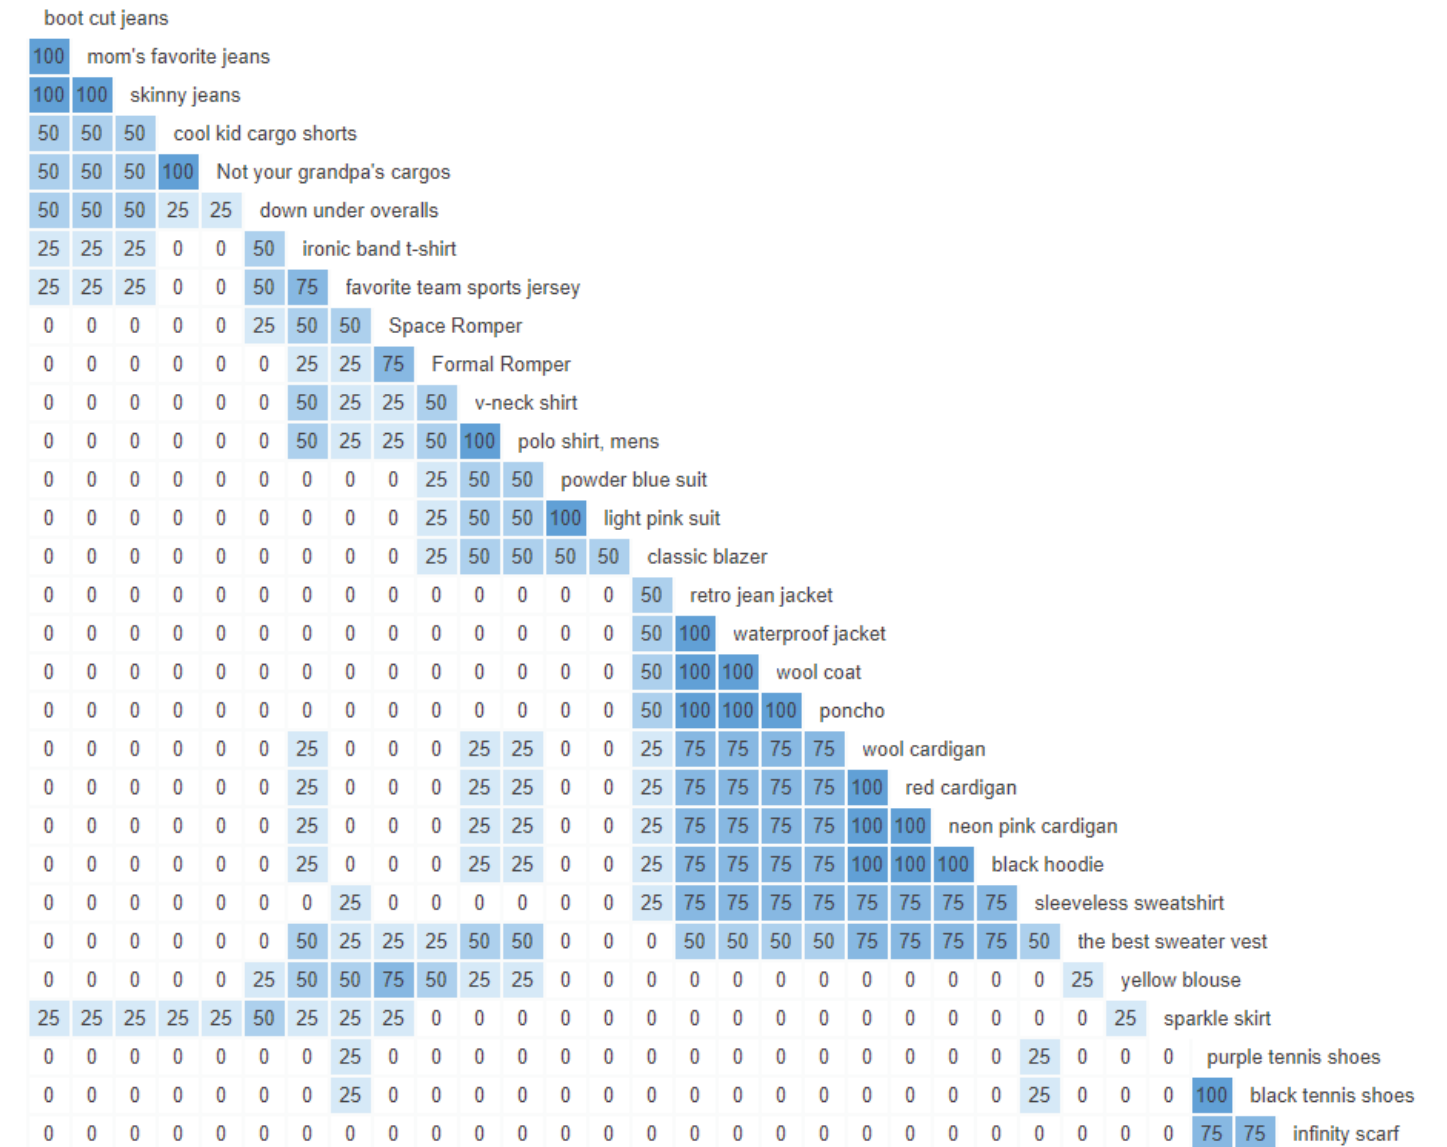

Showing 1 to 4 of 4 answers

### Actual Agreement Method

The Actual Agreement Method works best with 30 or more participants and will depict only absolutely factual relationships. We call this the Skeptical Dendrogram.

### Similarity Matrix

### Best Merge Method

The Best Merge Method often performs better than the Actual Agreement Method when your study has fewer participants. It makes assumptions about larger clusters based on individual pair relationships.
