### User Goals

- 1 Should be easy, convenient and safe for the owners to list their cars on InstaCar's market place
- 2 Should be able to reduce vehicle-ownership cost by monetizing the idle asset
- 3 Should be able to ontribute to a better environment by participating in the broader sharing economy
- 4 Should be able to feel good about helping people who do not have cars
- 5 Should have access to easy scheduling and 24/7 emergency support
- 6 Should be able to feel safe hosting his car on the P2P carsharing company's marketplace

### Company Goals

- 1 The core business idea involves unlocking the value of unused or under-utilized assets
- 2 The company should have a clear values-driven mission and be built on meaningful principles including transparency, humanness, and authenticity
- 3 The providers on the supply-side of the platforms should benefit from the ability to get services in more efficient ways that mean they pay for access instead of ownership
- 4 The business should be built on distributed marketplaces or decentralized networks that create a sense of belonging, collective accountability and mutual benefit through the community they build and operate in
- 5 To provide a accessible and sustainable mobility solutions
