

Learn how to have a conference with your child's teacher that is helpful!

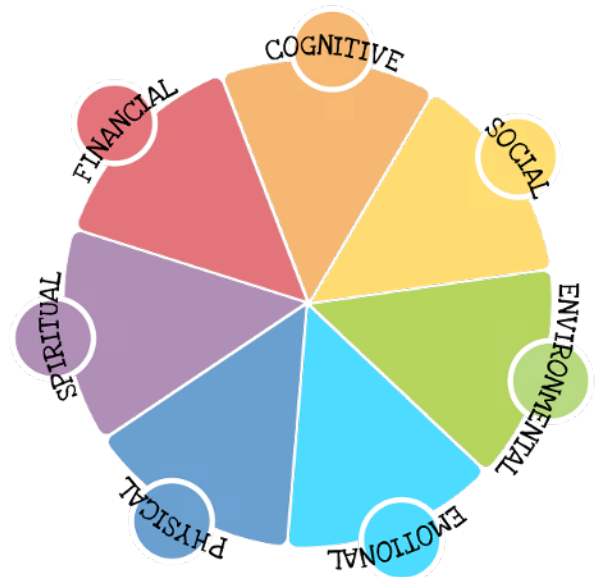

SUCCESSFUL FAMILY TEACHER CONFERENCES WORKSHOP

Every parent and caregiver loves their child and wants them to do well in school, but knowing how to talk to educators about your child's growth and progress can be tricky! Families may often leave conferences not understanding exactly how their child is doing and what they could be doing to help them succeed.

Dr. Jenn will be a thoughtful guide to helping you have a successful family teacher conference, giving you a better understanding of the academic vocabulary and sample questions to find out what's really going on with your child. She'll help you feel at ease with your child's teacher and help you feel confident participating in the conference.

Educators use their own language, without meaning to, and that can be quite confusing for caregivers. Get some 'codebreakers' from Dr. Jenn that can help you make sense of these conferences.

The length of the workshop can be determined by the sponsoring organization (schools, community groups or churches).

All of Dr. Jenn's workshops are based on the 7 dimensions of well-being (cognitive, social, environmental, emotional, physical, spiritual and financial) and tailored to the needs of the family.

Reach out to Dr. Jenn to discuss the needs of your family to see how she can help!
