Profile

I received my start in graphic design at an early age. Born in Scranton and raised in Orlando, I started working in my father's Prepress Shop, Ewasko Litho Services, when I was just 16-years-old, where I learned the foundations of Prepress/Printing. Over the next 20+ years, I've learned Graphic Design through hands on experience and direct interaction with clients, such as Planet Hollywood, Hard Rock Cafe, and World Publications, producer magazines such as Waterski, Sport Fishing, and more. I have extensive experience with the Adobe suite of programs such as InDesign, Illustrator, and Photoshop, as well as knowledge of HTML and CSS, and WordPress. I strive to stay up-to-date with the ever-changing marketing and design industry by advancing my knowledge through online courses, tutorials, and trade articles and magazines. Examples of my work can be seen on ewaskodesign.com
