

TENSION BASEPLATE KITS & ACCESSORY PARTS

Add 3D tissue culture, strain in high through-put plates, or equibiaxial or uniaxial tension to your Flexcell® Tension System .

- Increase your strain potential with an additional baseplate kit:
 - BioFlex® kit for applying equibiaxial tension to cells in monolayer culture.
 - HT BioFlex® kit for applying equibiaxial tension to cells in monolayer culture and in 24-well plates.
 - Tissue Train® kit for creating 3D tissues.
 - UniFlex® kit for applying uniaxial tension to cells in monolayer culture.
- All tension accessory parts such as baseplates, gaskets, and tubing can be replaced as needed. Parts are sold separately or as a part of the baseplate kits.
- Single plate baseplate kit includes one baseplate, 1 gasket, 1 loading station, 1 cell seeder, and two sample plates.

Figure 27. Single plate baseplate.

Baseplate Kits includes:

- Baseplate
- 4 Gaskets
- Corresponding Loading Stations
- 4 Cell Seeders
- 4 Sample Plates
- Acrylic Window
- Grease
- Software update, if needed
