

# LOADING STATIONS

- Comprised of a Lexan plate with 6 individual, removable posts.
- 25 mm (diameter) planar-faced cylindrical loading stations for use with BioFlex<sup>®</sup> culture plates and application of equibiaxial strain (uniform radial and circumferential strain). Larger diameter posts (28 mm and 31 mm) that yield lower strain ranges are available upon request.
- Twenty-four place, 10 mm diameter, cylindrical loading stations for use with the 24-well HT baseplate and HT BioFlex<sup>®</sup> culture plates.
- Arctangle<sup>®</sup> loading stations for use with the UniFlex<sup>®</sup> or Tissue Train<sup>®</sup> culture plates and application of uniaxial strain.
- Available in a set of four or as part of a baseplate kit.
