

FLEXCELL[®] TRANSWELL HOLDER

Holds Transwells to allow for cell migration and co-culture assays to be performed in Flexcell[®] culture plates.

- Analyze cell migration in response to strain.
- Run experiments with the unstrained control and the strained cells in the same culture plate well.
- Available for both 6- and 24-well Flexcell[®] culture plates.
- Compatible with standard Transwell sizes for 6-well and 24-well plates.
