

PRESSURE RESERVOIR & VACUUM PUMP

- **Flexcell® Pressure Reservoir** enhances the performance of the Flexcell® FX-6000™ System. It acts as both a system matched volumetric storage device and a pneumatic "shock absorber."
- **Trivac D8B Vacuum Pump** is a rotary vane vacuum pump from Oerlikon Leybold Vacuum. It is designed to pump gases/vapors out of vessels and vacuum systems down into the medium vacuum pressure range. The pump is not designed to handle hazardous gases, extremely aggressive or corrosive media, or greater than atmospheric concentrations of oxygen.
