

JULY 2019 NEWSLETTER

Vol. 6
No. 2

Dynamic Culture Products for Tissue Engineering

APPLYING FOR A GRANT in 2019?

Let FLEXCELL® help!

We have multiple options to help you get the preliminary data you need for your next RO1.

- 1) FREE 6-week demo on any of our equipment
- 2) LEASE to OWN. Renewable 6 months or 1 year leasing contracts
- 3) BUY now and save 5% on your FX-6000 purchase

Current NIH Announcements

- [Synthetic Biology for Engineering Applications \(R01\)](#)
- [Cancer Tissue Engineering Collaborative: Enabling Biomimetic Tissue-Engineered Technologies for Cancer Research \(R01\)](#)
- [Changes in Cellular Architecture During Aging \(R01\)](#)
- [Drug Screening with Biofabricated 3-D Skin Disease Tissue Models \(U18\)](#)
- [Engineering Next-Generation Human Nervous System Microphysiological Systems \(R01\)](#)
- [Methods to Improve Reproducibility of Human iPSC Derivation, Growth and Differentiation \(SBIR\) \(R44\)](#)
- [New Paradigms in Tissue Communication-from mediators to metabolic function \(RC2\)](#)

SALE!

5% OFF*

Flexcell® FX-6000 Systems
Tension, Compression, or Tissue Train®

*Sale ends July 31, 2019

Upcoming Tradeshows

25th Congress of the European Society of Biomechanics
Vienna, Austria
July 7, 2019

7th Annual US-Sino Biomedical Engineering and Biomechanics Symposium
Chongqing, China
July 20, 2019
