

The LED Cycle Sign is designed to warn and prevent vulnerable road users from going down the nearside of the vehicle. Connected to the nearside indicator, the sign will illuminate when the lorry signals to turn left when travelling at low speeds.

## Features

- High visibility warning for cyclists
- Robust design encapsulated in rubber moulding
- 117 LEDs that illuminate and flash, can also be set for lower brightness output.
- Can be used in conjunction with Sentinel's award winning bike hotspot system.
- Universal mounting bracket allows sign to be installed to any van or commercial vehicle, including the option to flush fit.

**IP  
67**
