

Small School Workshop

Thirty-eight teachers from around the Southwestern Union participated in a Small School Workshop on July 8-11, 2019 in Burleson, TX. The theme of the workshop was “A Journey to Excellence;” teachers are on a journey to create a culture of excellence for their learners.

It was a time for multi-grade teachers to network as well as participate in professional learning experiences that included topics related to classroom management, scheduling, curriculum, lesson planning, and administrative duties. One day was spent in simulated multi-grade classrooms to observe master teachers manage and instruct groups of students, including grades 1-4, 5-8, and 1-8.
