2400 W. Copans Road, Unit 8, Pompano Beach, FL 33069
2815 Directors Row, Suite 600, Orlando, FL 32809

# TYRRELLTECH TIPS

## 'Tis the Season for Static

Welcome dry weather and winter—and with it, welcome static to your production space. You will feel it when you touch laminate, or electronics, or some days, anything at all. Static can rear its ugly head throughout your production environment and can wreak havoc on your prints and your lamination. So, beware of static.

TyrrellTech has several things that can help combat static in various places in your shop. We have static strings with magnets that can be installed on your printer to discharge static as it goes into your printer. We have static strings for vinyl cutters as well. We want to help protect your equipment and save you from that heart stopping shock that you can get when you get a big static charge!

And, when all else fails or if you are in a pinch, remember… dryer sheets have about a million uses, and one of them is rubbing them ever so lightly over your vinyl or laminate to discharge static in a pinch!

## ACH is now a Payment Option!

TyrrellTech now has the ability to accept payments by ACH. If you are interested in ACH as a payment method, please send the request to info@tyrrelltech.com and we can send the approval form to you for completion –Feel free to contact us with any questions, thank you for your continued business.

# MEDIA MAYHEM

## MetaliK Media!

TyrrellTech now offers a printable metallic from Kernow Coatings that you might have seen in our TyrrellTech YouTube post this past spring-- it's... awesome!

It is a bright shiny Silver, Gold or Rose Gold metallic film; the perfect film for mounting unique looking prints on boards. This media has a very smooth finish, close to a mirror effect. It comes in both removable and high-tack adhesive options and all versions can be cut and weeded.

And, to make them more accessible for all, they now come in some nice, smaller roll sizes to get you started.

***Removable Adhesive MetaliK® Cut&Print Gold, Rose Gold & Silver***

| | |
|---|---|
| 24"x10' | $42.95 |
| 24"x30' | $96.95 |
| 30"x30' | $120.95 |
| 54"x50' | $332.95 |

***High Tack Permanent Adhesive MetaliK® Gold, Rose Gold & Silver***

| | |
|---|---|
| 24"x10' | $42.95 |
| 54"x50' | $312.95 |

## Bantex Banner Media- Made in the USA

Bantex banner media is manufactured in the USA. That means that this line is a brand of banner media that is safe from the impending tariffs on some other products.

**BANTEX®** DIGITAL MEDIA

And it isn't all about price... We have had customers specifically ask for the Bantex curl free banner because it is consistent, reliable, and makes for a beautiful print. They have said that it is VERY worth paying a bit more for it, because of the quality.

So, we are rerunning this ad to remind you about it-- banner for pop ups that won't curl and that is made right here in Pennsylvania, in the good old USA. With pending tariffs on all kinds of products, having this option is a real winner.

Product Highlight: Bantex 10 oz Single Sided Curl Free Black Backed Banner- great for pop up and display stands, available in 36" x 25yds, 36" x 50yds, 54" x 25yds, 54" x 50yds and 72" x 50yds. The Bantex banner product is one worth checking out-- call TyrrellTech today to learn more. 888-865-0300.

## Apply Printed Heat Transfer in 5 Seconds?!

Siser is a company that provides a wide range of CAD cut and printable heat transfer product. Their latest introduction is sure to turn some heads...

Introducing the latest HTV to join Siser's Print & Cut lineup: Hi-5 Print Matte! Hi-5 Print Matte is a new CPSIA-certified material that is designed for low-heat application; as low as 250°F for only 5 seconds. This prevents scorch marks and discoloration from appearing on certain heat-sensitive garments. Hi-5 Print Matte is compatible with Solvent, Eco Solvent, and Latex inks and adheres to most fabrics including 100% Polyester, 100% Cotton, and Poly/cotton blends. Both TTD Easy Mask and TTD High Tack Mask can be used for the masking process. This product has a matte finish, and comes in 20" or 30" wide rolls by 5, 10, 25 or 50 yard lengths. Call today to learn more! 888-865-0300

# PRINTER NEWS

## New From Mimaki- UV Print & Cut

The Mimaki UCJV300 series cut-and-print devices provide more than a simple print and cut experience: it goes beyond extraordinary to deliver an awe-inspiring range of applications and versatility. Create stunning transitional backlit panels that 'change' color schemes with the light source. Print and cut – or cut first then print – labels, decals, window clings, vehicle markings, etc., all on one unit. Flexible UV cure inks expand the possibilities for you to offer unique capabilities to keep you competitive

The UCJV Print & Cut line has just been expanded to include four size options-- you can get this model now in a 64" width, 54" width, 42" width or a 30" width.   Check out demo units at a few of our locations-- call to set up a time-- 888-865-0300.

## New Roland Versaworks 6 Release!

Coming Soon:
This all new feature-packed VersaWorks 6 software expands the production capabilities and maximizes the power of Roland printers and printer/cutters. In addition to all the nesting, tiling, resizing and other essential functions users expect from Versa-Works, the upgraded  VersaWorks 6 features new HARLEQUIN RIP dual-core operation and native 64-bit processing as well as a host of tools for increased productivity and performance.

# CWT Laminating Work Table- So Easy a 7 Year Old Can Use It!

The CWT Worktable solution is one to pay attention to. This table can apply laminate or transfer tape, it can mount prints to boards, and it can do it all with the push of a button and the smooth roll of a foam wheel.

When worktables first hit the scene, many, like us, thought, "Well, I can do that with a laminator!"  And yes, laminators are great for lots of things-- long lamination jobs, mounting decals and more.  But, the CWT worktable can make fast and easy work of small and big mounting jobs, applying one piece of laminate to a print or one decal to a precut board.  And, it is easy.  He stuck his print to a board here (with a little help) with ease!
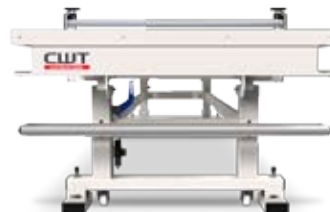

Check out demo units at a few of our locations-- call to set up a time-- 888-865-0300.  Seeing this thing is believing!

## CWT Table Savings!

### CWT 1630 Premium Save $2,400

### CWT 1640 Premium Save $2,500

### Free Swag!

Free Linear Cutter, Compressor, Long Reach Knife, Sticky Roller & Sticky Pad!!

*Offer Good Until November 28, 2018*

# ENGRAVER CORNER

## Engraving

In the sign making world, consistent engraving is a key to success. But, let's go one step further by taking a look at the High Power Density Focusing Optic (HPDFO). The HPDFO provides engraving as small as .001 inches. Yes, you read that correctly, .001. This allows a Universal Laser user to produce the most intricate designs on a wide variety of materials: Engravers Plastic, Wood, Acrylic, Anodized Aluminum, Marble, Glass and more.

This month, with the special on the PLS Dual tube system, it will pay to talk to one of our Laser Specialists about the fine detail engraving work with one tube and the power of cutting thick materials with 2 tubes. Process engravers plastic like there is no tomorrow. Call TyrrellTech-- Nobody Makes it Easier! 888-865-0300.

## Learning Curves

Learning curves get in the way of making money. But we are here to help with that problem!

In the beginning of any new revenue making center, there is waste. Time, material, and labor are all wasted while learning. The key to getting a revenue center up to it's maximum profits is to reduce the learning curve. Universal Laser Systems (ULS) and TyrrellTech provide you with the best solution to quickly reduce the time it takes to learn a system and become profitable.

Partner with TyrrellTech and our "you're stuck with us" training packages, and we will work with you to get you comfortably up and running, to be productive and profitable! You don't need an engineer to run a Universal Laser System-- with an easy to use machine and the support of a great partner on your team, we can make learning curves navigable!

## Roland Engraving Promotional Prices!!

For anyone who would like to subscribe and watch our video postings, we would love to have you! Check it out at:
*https://www.tyrrelltech.com/social*
or go to youtube.com and search *TyrrellTech* to see our videos!

Sadly, the tariffs are beginning to effect just some of the product that we sell, so please be on the lookout for price increases. Not all brands and not all products are effected, but we will work to let you know when your product does have a price jump.

*TyrrellTech has Fall Birthdays to celebrate!*
*Tracey Schaub- October 13- Sales Manager*
*Eric Cohen- October 18- Florida Sales & Support*
*Craig Tyrrell- October 23- The guy in charge*
