## Are You Fulfilling the Need for Safety Materials?

**RxProtect 4** is a chemically bonded nonwoven with a TPU coating. The material is available in charcoal and white colors. RxProtect 4 is ideal for applications in the medical industry that require an AAMI level 4 protection level. RxProtect 4 is available in 60" widths.  
 RXPR41520250 60" x 250yd \$1,586.00 43¢ per sq ft  
 Also available in 2,000 yard roll

**RxTex 54** is a thermally bonded non-woven. The material is available in charcoal, black and white colors. RxTex 54 is ideal for applications in the medical industry that require an AAMI level 1 protection level. RxTex 54 is available in 60" & 120" widths.  
 RXTX54300250 120" x 250yd \$774.00 10¢ per sq ft  
 RXTX54152250 60" x 250yd \$389.00 10¢ per sq ft  
 Also available in 2,000 yard roll

**RxTex 102** is a thermally bonded non-woven. The material is available in black and white colors. RxTex 102 is ideal for applications in the medical industry that require an AAMI level 1 protection level. RxTex 102 is available in 60" and 120" widths.  
 RXTX10230250 120" x 250yd \$947.00 13¢ per sq ft  
 RXTX10215225 60" x 250yd \$473.00 13¢ per sq ft  
 Also available in 2,000 yard roll

## Roland & TyrrellTech Have Got You Covered...

- Automatic 3-Month Warranty Extension on All Roland Factory Warranties Still Active as of April 2, 2020  
 Roland is extending the warranty coverage for all Roland DGA sold products with an active warranty as of April 2, 2020, by an additional 3-months of coverage. This will include products with warranties nearing their two year expiration after purchase as well as products purchased recently. Effective immediately, with no action by the customer or dealer required.
- Deferred Lease Payments  
 We have lenders ready and willing to offer leases where you can make payments of just \$99 a month for up to the first 6 months with the lease of a new device.
- Rebates on Popular Roland Printers  
 As a reminder, special offers on some of our most popular printers are available now through April 30, while supplies last.  
 \$2,500 off on a TrueVIS VG2 54" or 64" print/cut model  
 \$4,000 off on the LEF2-300 Small Format UV Printer for Marking & Personalization  
 \$6,000 off on the XR-640 Flagship 64" printer/cutter

### Start an Online or Home-based Business with a Deal on a Compact DTG Printer

You can get into DTG printing from your home or office, easily and affordably with this special offer on the BT-12- it's a direct to garment starter printer in a box! Just \$3,495 + shipping

## We are Here to Help...

### Machine Issues?...

We are available for remote service support and we have maintenance supplies available to ship in all offices.

### Computer Issues?...

We are available for software, file, printer and even network connection issues. We can log in remotely. #socialdistancing

### Media Issues?...

In fast need? We have four fully stocked warehouses available to ship. We can provide solutions to fit most if not all needs!

## TYRRELLTECH TRAINING

The TyrrellTech Training Academy classroom is temporarily closed due to the various Shelter in Place regulations. We are working on email blasting out opportunities for online learning, and we hope to return to the airwaves with more training options this summer! In the meantime, watch your inbox for webinar and other remote training opportunities.

**Anyone who wants remote training, call today-- we can set up a custom tailored remote training session for you!**

## Mimaki's JFX200-2513EX flatbed printer

Mimaki is taking flatbed printing to the next level with the JFX200-2513 EX. This innovative printer adds new productivity and functionality to our proven JFX200 technology. It also adds extra dimension to graphics with an advanced 2.5D Print Function that lets you create realistic textured effects up to 0.5 mm high - with the touch of a button.

- Print on a 4' x 8' board or a variety of pre-cut pieces up to 2" thick
- Print as many as 12 boards per hour
- Three staggered printheads for simultaneous printing when using white and clear inks
- Foot pedal to easily control vacuum when loading media
- Dual-zoned vacuum table and user-adjustable layout pins
- Nozzle Check Unit included
- Eco-friendly with low VOC, GREENGUARD Gold certified UV-LED inks
- Updated RIP software RasterLink6 Plus to support 2.5D textured print workflows

### Orabond Tapes

**Who Doesn't Need Some Good Tape Once in a While?!**

TAPE1397PP-1  
Orabond 1397PP Polypropylene Liner Double Sided Tape

*POP displays, outdoor signs, banners, APET, fluted PP board, Falcon foam, Lexan, hi-impact Styrene, etc., which have to be very stress-resistant.*  
1" x 55 yards- \$9.95

### ORABOND® 1397PP High Performance Double Coated Tape

Alternative to	Tesa 4965, 3M 9088FL, Lohmann 376F/377F
Adhesive	Solvent Modified Acrylic
Carrier	12 micron/0.5 mil clear PET
Liner	80 micron/3.15 mil red polypropylene film
Thickness	210 micron (8.5 mil)

TAPE1819TM-1  
Orabond 1819TM Double Sided Foam Tape  
1" x 36 yards- \$9.95

Orabond 3110G Ultra High Bond Double Sided Tape- High Performance Bonding & Mounting- Ideal for applications where thermal expansion differences are a concern

UHB03110G-1	1" x 36 yards	\$37.95
UHB03110G-5	1/2" x 36 yards	\$18.95
UHB03110G-75	3/4" x 36 yards	\$28.95

TAPE1395- Oracal Orabond 1395 Double Sided Tape

*Bonding of foams, paper and boards. Indoor signs, splicing of foams and boards, etc.*

1" x 36 yards- 5.23

### ORABOND® 1395TM General Purpose Double Coated Film Tape

Alternative to	Nitto 5011, Lohmann 3720, 3M 9098
Adhesive	Solvent Modified Acrylic
Carrier	12 micron/0.5 mil clear PET
Liner	55#/3.0 mil white paper with blue ORAFOL imprint
Thickness	130 micron (5 mil)

Tape3599-1 Oracal Orabond UHB 3599 Ultra High Bond Tape

*Ideally suited for mounting, bonding and sealing of illuminated displays, signage, laminated safety glass, shower screens and glass displays.*

1" x 36 yards- \$43.03

### ORAMOUNT® 3599 Ultra High Bond (UHB)

Alternative to	3M 4910
Adhesive	Foamed Acrylic, Clear
Carrier	Clear
Liner	5.0 mil release coated polyethylene, Red
Thickness	1,000 micron (40 mil)

TAPE1375-12 Orafol 1375 High Perf. Acrylic Transfer Tape

*Ideally suited for metal and plastic nameplates and fascia panels for the electronics and sign & display industries.*

(alternative to 3M 467MP)  
12" x 55 yards- \$106.95

### ORAFILM® 1375 High Performance Acrylic Transfer Tape

Alternative to	3M 467MP
Adhesive	Pure Acrylic
Carrier	Unsupported transfer
Liner	Moisture stable PE coated paper, brown Blue ORAFOL® imprint
Thickness	60 micron (2.5 mil)

## Roland Stimulus Package Promotions

Now extended through June 30th, customers who purchase a VG2 series printer/cutter, an XR-640 printer/cutter or LEF2-300 UV flatbed printer can save up to \$6,000 for a limited time. We are also taking \$2,000 off the SG2-540 printer/cutter. Check out these great money-saving opportunities.

# You can't BEAT this!

**VG2-540- Save \$2,500**  
**VG2-640- Save \$2,500**  
**SG2-540- Save \$2,000**  
**XR-640- Save \$6,000**  
**LEF2-300- Save \$4,000**  
**BT-12- Save \$1,500**

## Canon Arizona Flatbed

# Canon

Arizona® series printers offer breakthrough performance to deliver “no compromise” printing for a variety of applications. Each model uses UV curable inks and Océ VariaDot® imaging technology to deliver near-photographic image quality. Each is built on a true flatbed architecture to print on almost any rigid media or object, and some feature a Roll Media Option for printing onto flexible materials. There are a number of significant technological advances included in the Arizona family of printers, and this backgrounder will explain their functionality and benefits.

In addition to the already near-photographic image quality possible with only four-color Océ VariaDot technology, more recent models of the Océ Arizona series such as the Océ Arizona 2260, Océ Arizona 2280, and the Océ Arizona 6100 series printers now offer the ability to use light cyan and light magenta inks, taking image quality to exciting new levels. This addition directly translates into higher productivity print modes without sacrificing image quality.

Contact TyrrellTech to find out more, see samples, or to coordinate a virtual demo! 888-865-0300 or info@tyrrelltech.com

## Colex Flatbed Cutter Solutions

Canon Solutions America provides the Colex® Sharpcut™ Digital Finishing System as a production cutter and finishing solution. This complete turnkey solution will help automate the print service provider's workflow and reduce costs associated with the finishing process of large format goods. This will open the doors to new opportunities, reduce costs, and help increase production while tapping into new revenue streams.

The Colex Sharpcut is an easy-to-use cutting solution with an intuitive software platform at its core. Though competitively positioned, it is not to be underestimated for its versatility, throughput, and its ability to help you unlock the full potential of your flatbed printer. The Colex Sharpcut Finishing System, along with ONYX® software, features an automated and easy-to-use workflow solution for nesting and optimizing media. Now you can:

- Reduce costs & turnaround time on short-run jobs
- Turn outsourced jobs into in-house revenue opportunities
- Decrease labor costs
- Reduce waste and increase profits

## ENGRAVER CORNER

### Universal Laser Announces the New ULTRA Series R5000 Model

Universal Laser Systems, Inc. just unveiled the R5000, the newest addition to the ULTRA family of laser material processing systems. Ideal for laser processing a wide range of natural and advanced polymer and composite

materials, the ULTRA R5000 is a professional, high quality, mid-range and flexible platform designed to meet today's as well as future requirements for general manufacturing, product development, materials research and educational customer environments.

With its patented dual-wavelength hybrid laser technology and built-in laser power optimization capabilities, the R5000 offers the unique capability to accurately match the available laser energy with a material's absorption characteristics to achieve optimal end results. A variety of CO2 laser cartridges can be used in tandem with a range of wattages, as well as the addition of fiber laser tubes for precise metal marking, from 20 to 50 watts.

The R5000 supports numerous productivity enhancement options, including a sophisticated, patent-pending, multi-camera-based augmented reality user interface that enhances visual workflows and processes design files that use registration marks to accurately position material for processing.

Additionally, the powerful control interface, with a built-in and ever expanding database of material laser processing parameters, drastically simplifies setup and use of the system. This allows users to intuitively run the most complex design files with ease. The R5000 can perform operations, including high speed cutting, marking, surface profiling, engraving, surface modification and many others. Its modular design enables users to configure the system for laser processing of a specific material or a broad range of diverse applications.

The ULTRA R5000 system from Universal Laser Systems offers short-term return on investment and expansion in capabilities beyond other systems currently available.

## ULS Promos & Deferred Payment Options

Universal Laser Systems is thankful for the continued loyalty and support of their customers. In addition to a customer loyalty discount offer of up to 35% off new system purchases, ULS's financing partner is offering special terms with 90 days of deferred payments!

Apply for financing now. Give us a call! 888-865-0300 or [info@tyrrelltech.com](mailto:info@tyrrelltech.com).

Here at TyrrellTech, we often tout that our service is second to none. It's a high bar to set, but we truly believe that supporting the heck out of the machine that is an integral, profitable part of your business is of the utmost importance. Even the scary service issues don't run us off—we knuckle down and dig into it to figure it out. The service that we offer company wide sets us apart, and that is true through and through for our laser engraving department. The same person that you can talk to about getting the right laser machine for your business is also the person who can help you to maintain that machine and who can troubleshoot software and mechanical issues. And, we have a team of those people up and down the east coast, working together to solve issues and keep you up and running. It is not easy to stand behind our 'Nobody Makes It Easier' motto here at TyrrellTech, but we are up for the challenge. We are here to give you more, and the best of it. Give us a shot! 888-865-0300, [info@tyrrelltech.com](mailto:info@tyrrelltech.com).
