

Simplify knowledge discovery

Stravito is a knowledge technology company. We help decision-makers in consumer businesses deliver on their customers' needs, wants and desires better than anyone else.

Simplicity-first drives every aspect of Stravito's cloud service. Our digital library makes gathering market research and sales data as easy as sending an email. We use machine learning to categorize and index documents automatically, and natural language search for speedy discovery and answers. No training is ever required.

Designed for collaboration, Stravito lets users see what others are exploring and share collections of findings among colleagues across divisions and regions.

Stravito was started in 2017 by a team of entrepreneurs with decades of technology and consumer goods experience. Stravito headquarters are in Stockholm.

Business pains solved with Stravito

Did you know that knowledge workers spend on average 2,5 hours/day searching for information! A few other statistics that confirm the actual business pains:

1. It takes too long to find content
2. There are duplicated efforts and files
3. Insufficient re-use of information

Stravito wants your employees to

💡 Use your budgets to **acquire new insights**, not rediscover old ones

📋 **Create strategies** and plans **filled with insight**, not guesswork

⚙️ **Create independent thinkers**, not insight bottlenecks
