We've been producing canvas in house for over fifteen years and are dedicated to producing exceptional quality results. Create single image, freestyle DIY layout and collage photo canvas wall decor from your favourite photos and artwork.

Profiled in house, prints have a massive colour gamut, fine detail and archival print permanence with HP water resistant Latex Inks. Canvas prints displayed out of direct sunlight lifetime is estimated at 200 years with our matched Premium HP USA manufactured 381 gsm satin canvas stock.

Prints are wrapped around 1.25in/3.2cm deep NZ kiln dried pine stretcher bars for long term stability. Care of your canvas is simple; with strong water resistance simply wipe gently with a damp cloth to remove dust. Canvases come ready to hang.

Wrap/Sides Finish

- **Gallery Wrap** Image wrapped around the sides.
- **Mirror Sides** Image on the front, edges then mirrored / reflected around the sides. Perfect for a Gallery Wrap look when important details are too close to the edges of your image to wrap.
- **White or Black Sides** Single image or freestyle on front.
- **Designer & Collage layouts** From 1 to 64 images.

Back/Rear Finish

Our standard finish on the back of canvases whilst tidy, shows the staples with the excess canvas left untrimmed. Standard nylon hanging cord is attached with staples.

Upgrade to our framers finish backing for a pro look. Excess canvas is trimmed and staples covered with framers tape and felt bumpers added to protect walls. Includes premium hanging wire and metal d-rings.

File Types, Resolution & Colour Balance

As canvas is a woven textile surface it often effectively masks pixelation and compression artifacts in less than ideal resolution files. Dependant on an images subject matter we can often produce amazing quality canvas from resolutions as low as 72dpi (dots per inch). 300 dpi will produce the highest level of detail perceptible.

Jpeg files. sRGB or Adobe(1998) RGB Profiles. Where possible submit original files and try not to reduce or enlarge the file when editing pre submission. Always check your monitor / display isn't excessively bright or contrasted and colour balance is set to normal to get the best indication of the final printed result.

Postage & Handling

Collect your canvases in store, or have them shipped to you. Canvases are wrapped first in bubble wrap then surrounded with a minimum of three layers of heavy duty corrugated cardboard for maximum protection when shipped.

Fotofast uses Australia Post Parcel Post and other high quality courier services to ensure delivery as soon as possible. We post Australia wide. Most orders will arrive within 5-15 week days of placing your order dependant the production speed chosen and your location*. Express Delivery by quote.

Shipping prices are calculated with a base rate and per canvas charge. Please note: We are unable to ship canvas to PO Boxes. If you have a safe area for your parcel to be left put ATL (Authority to leave) in your comments and where possible we'll have the delivery driver leave it at the premises (excludes units and gated communities where access is limited)
