

As the colors on the trees change, you may find yourself daydreaming about ski season, crisp mornings and corduroy groomed slopes, about carving up that mountain with your skis or board. For many with disabilities, the joys of snow sports are just that, dreams. ARISE & Ski is an adaptive winter sports program that has been bringing those dreams to reality since 1996. Thanks to this collaboration between Toggenburg and ARISE we have been able to offer this special program to our community. **Help us to continue to provide opportunities for all who dream of sliding on the snow by joining our community of ARISE & Ski volunteers this season.**
