## EXPERIENCE

### **Washington State Department of Transportation**

Designer | *December 2018 - Present*

Working with WSDOT, King County Metro, and Sound Transit to help inform drivers, bikers, and public transit users about major road incidents and provide recommendations to help them get to their destination efficiently and safely.

### **Facebook**

Product Design Intern | *June 2018 - September 2018*

As part of the Facebook Video team, my responsibilities include designing interfaces and prototyping interactions to cultivate the relationship between creators and fans.

### **Spotify**

Product Design Intern | *June 2017 - September 2017*

Worked on the Spotify for Artists platform designing a new royalty feature to empower artists with financial data and revenue projection. Responsibilities included cross collaboration with the product insights team and global design systems team.

### **Dubhacks**

Designer | *January 2018 - October 2018*

Joined the Dubhacks executive organizing team which hosts one of the largest social good hackathons in the US. Responsible for designing the marketing site, internal tools, and other assets to invite students across the world to create.

### **Associated Students of the University of Washington**

Designer | *September 2016 - June 2018*

Helped empower student voices and promote inclusion through design. Responsible for designing event posters, creating the new ASUW branding, and building advertising campaigns for various entities.
