1 General information

These interim financial statements cover Aoris International Fund (the "Fund") as an individual entity. The Fund was constituted on March 2, 2018 and commenced operations on March 26, 2018. The Fund will terminate on March 14, 2118 unless terminated earlier in accordance with the provisions of the Fund's Constitution.

The Trust Company (RE Services) Limited (ABN 45 003 278 831) is the responsible entity of the Fund (the "Responsible Entity"). The Responsible Entity's registered office is Level 18 Angel Place, 123 Pitt Street, Sydney, NSW 2000.

The interim financial statements are presented in Australian dollars, which is the functional currency of the Fund.

The Responsible Entity is incorporated and domiciled in Australia.

The investment manager of the Fund is Aoris Investment Management (the "Investment Manager").

The Fund invests in a concentrated portfolio of generally 10-15 stocks drawn from international equity markets outside Australia and FX forwards for hedged classes.

The interim financial statements were authorised for issue by the directors of the Responsible Entity (the "Directors of the Responsible Entity") on March 11, 2020. The Directors of the Responsible Entity have the power to amend and reissue the interim financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these interim financial statements are set out below.

(a) Basis of preparation

These interim financial statements have been prepared in accordance with Australian Accounting Standards AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS 34 *Interim Financial Reporting*.

These interim financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these interim financial statements are to be read in conjunction with the annual financial statements for the year ended June 30, 2019 and any public announcements made in respect of the Fund during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The Statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for investments in financial assets and liabilities and net assets attributable to unitholders.

(b) Significant accounting policies

The accounting policies applied in these interim financial statements are the same as those applied to the Fund's financial statements for the year ended June 30, 2019.

There are no other standards, interpretations or amendments to existing standards that are effective for the first time for the half year beginning July 1, 2019 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

3 Rounding of amounts

The Fund is an entity of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the interim financial statements. Amounts in the interim financial statements have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

4 Fair value measurement

The Fund measures and recognises the following assets and liabilities at fair value on a recurring basis.

- Financial assets / liabilities at fair value through profit or loss (FVTPL)
- Derivative financial instruments

The Fund has no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

4 Fair value measurement (continued)

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
 - (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
 - (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).
- (i) *Fair value in an active market (level 1)*

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Fund values its investments and derivatives in accordance with the accounting policies set out in Note 2 to the financial statements. For the majority of investments, information provided by independent pricing services is relied upon for valuation of investments.

The quoted market price used to fair value financial assets and financial liabilities held by the Fund is the last-traded prices.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

An active market is a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

(ii) *Valuation techniques used to derive level 2*

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Fund would receive or pay to terminate the contract at the end of the reporting year taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

The determination of what constitutes 'observable' requires significant judgment by management. Management consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

Recognised fair value measurements

The following table presents the Fund's financial assets and liabilities measured and recognised at fair value as at December 31, 2019 and June 30, 2019.

As at December 31, 2019	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
Financial assets

Listed equities	21,624	-	-	21,624
Total	21,624	24	-	21,648

4 Fair value measurement (continued)

Recognised fair value measurements (continued)

(i) *Transfers between levels*

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

There were no transfers between the levels in the fair value hierarchy during the reporting period.

(ii) *Fair value measurements using significant unobservable inputs (level 3)*

The Fund did not hold any financial instruments with fair value measurements using significant unobservable inputs during the half-year ended December 31, 2019 or at June 30, 2019.

(iii) *Valuation processes*

Portfolio reviews are undertaken regularly by the investment manager to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities.

Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, the investment manager performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

(iv) *Fair values of other financial instruments*

Due to their short-term nature, the carrying amounts of cash and cash equivalents, receivables and payables are assumed to approximate fair value. Net assets attributable to unitholders' carrying value may differ from its par value (deemed to be redemption price for individual units) due to differences in valuation inputs.

7 Net assets attributable to unitholders

Under AASB 132 *Financial Instruments: Presentation, puttable financial instruments* meet the definition of a financial liability to be classified as equity where certain strict criteria are met. The Fund has elected into the AMIT tax regime and consequently the Fund's constitution has been amended. The Fund does not have a contractual obligation to pay distributions to unitholders. As the units on issue comprise multiple classes of units with non-identical features, the Fund's net assets attributable to unit holders cannot be classified as equity; and therefore, are classified as a liability in accordance with AASB 132 *Financial Instruments: Presentation*.

Movements in the number of units and net assets attributable to unitholders during the period were as follows:

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets of the Fund.

There are four separate classes of units. Each unit within the same class has the same rights as all other units within that class. Each unit class has a different management fee rate and performance fee rate.

Units are redeemed on demand at the unit holder's option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months after the end of the reporting period cannot be reliably determined.

As the units on issue comprise multiple classes of units with non-identical features, the Fund's net assets attributable to unit holders cannot be classified as equity; and therefore, have classified as a liability in accordance with AASB 132 *Financial Instruments: Presentation*.

7 Net assets attributable to unitholders (continued)

Capital risk management

The Fund considers its net assets attributable to unit holders as capital, notwithstanding net assets attributable to unit holders are classified as a liability. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily applications and redemptions at the discretion of unit holders.

Daily applications and redemptions are reviewed relative to the liquidity of the Fund's underlying assets on a daily basis by the Responsible Entity. Under the terms of the Fund's Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust redemption of units if the exercise of such discretion is in the best interests of unitholders.

8 Distributions to unitholders

Distributions are payable annually. Such distributions are determined by reference to the net taxable income of the Fund.

There were no distributions declared for the half-year ended December 31, 2019 (December 31, 2018: Nil).

9 Auditor's remuneration

During the half-year the following fees were paid or payable for services provided by the auditor of the Fund:

	Half-year ended	
	December 31	December 31
	2019	2018
	\$	\$
Ernst & Young		
Audit and other assurance services		
Review of interim financial statements	8,500	-
Total remuneration of Ernst & Young	8,500	-

The Auditor's remuneration is borne by the Investment Manager. Fees are stated exclusive of GST.

10 Significant events during the half-year

There were no significant events during the half-year.

11 Events occurring after the reporting period

Since December 31, 2019 significant volatility in the financial markets have had an impact on the value of the Fund's investments. Subsequent to the Statement of Financial Position date, the aggregate fair value of the Fund's investments has decreased by approximately 10%. Any impact on the Fund has not been recognised in the December 31, 2019 financial statements.

The directors are not aware of any other event or circumstance since the reporting date which would impact on the financial position of the Fund disclosed in the Statement of Financial Position as at December 31, 2019 or on the results and cash flows of the Fund for the half-year ended on that date.

12 Contingent assets and liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at December 31, 2019 and June 30, 2019.

Directors' declaration

In the opinion of the Directors of the Responsible Entity:

- (a) the interim financial statements and notes set out on pages 5 to 14 are in accordance with the *Corporations Act 2001*, including:
- (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and

Independent Auditor's Review Report to the Unitholders of Aoris International Fund

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Aoris International Fund (the "Fund") which comprises the statement of financial position as at 31 December 2019, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a description of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Fund is not in accordance with the Corporations Act 2001, including:

- a) giving a true and fair view of the Fund's financial position as at 31 December 2019 and of its financial performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Responsible Entity of the Fund are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the Fund's financial position as at 31 December 2019 and its financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of the Fund, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.
