

Campus Information System

DEGEO

Single Point of Access to All Campus!

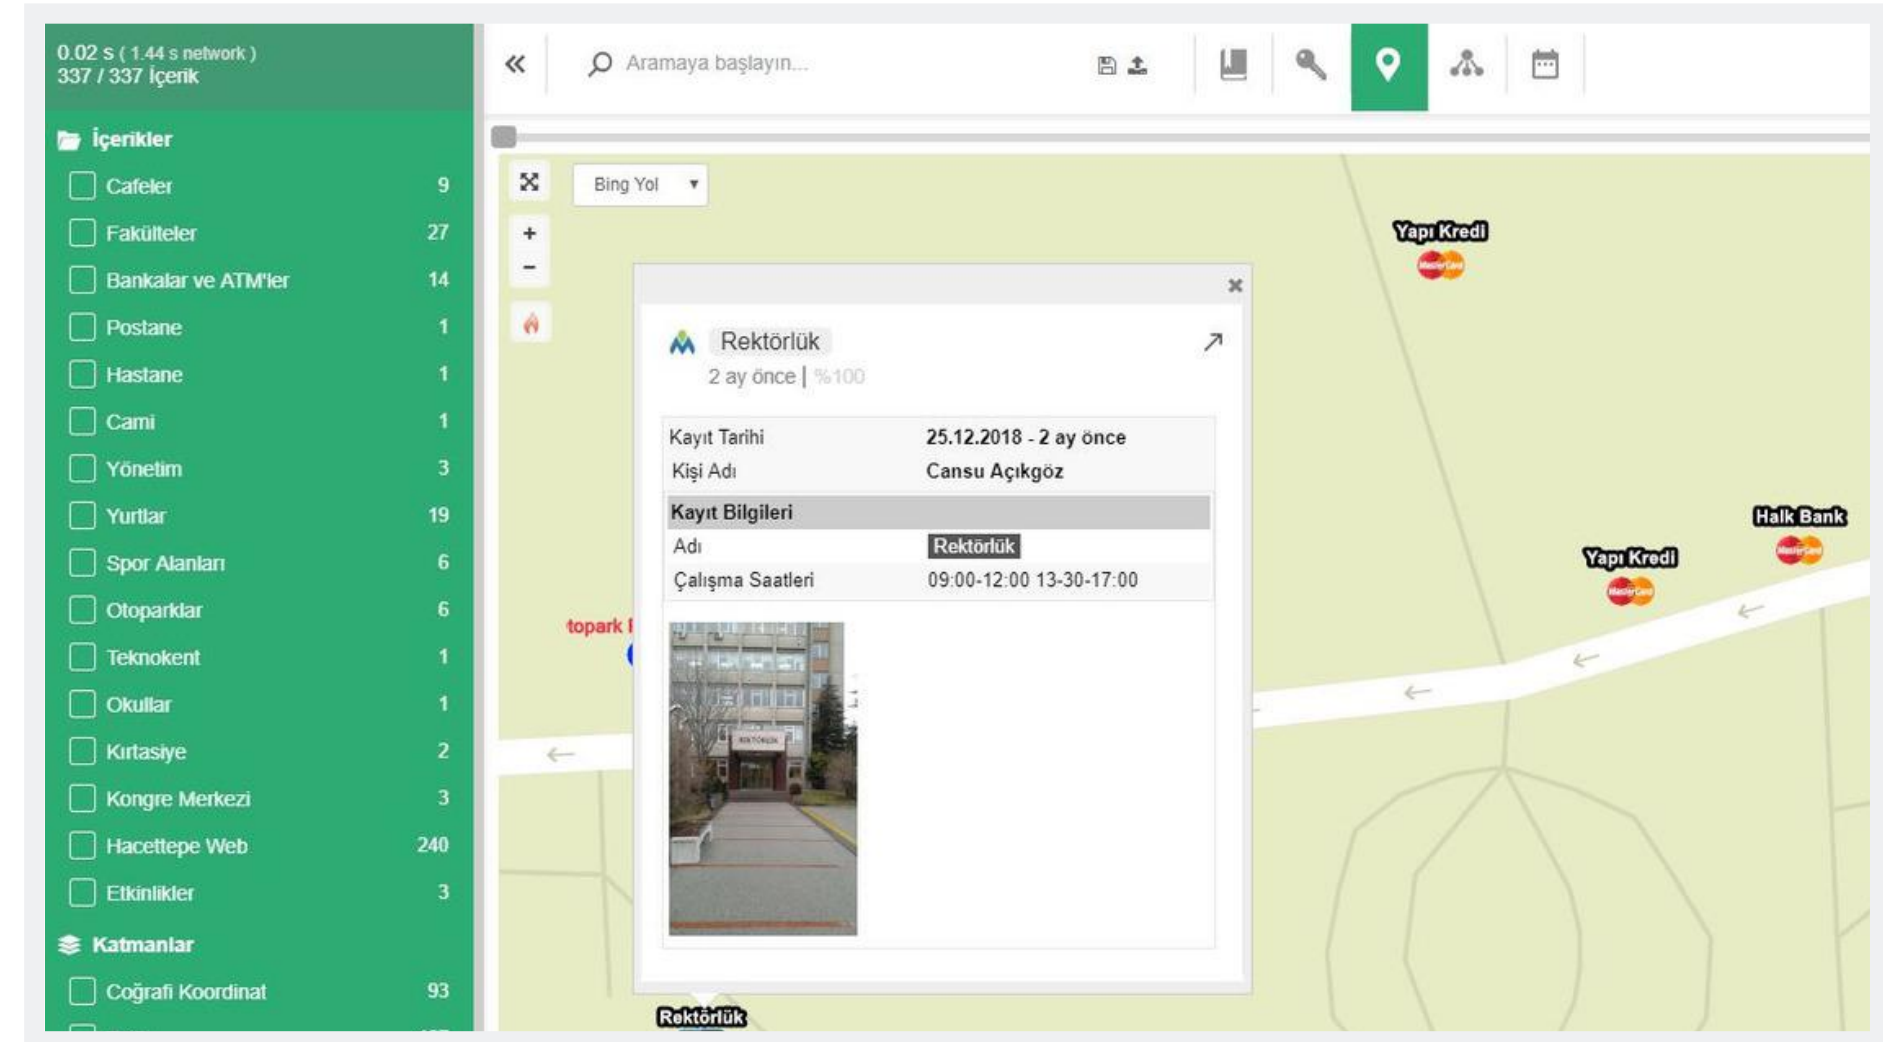

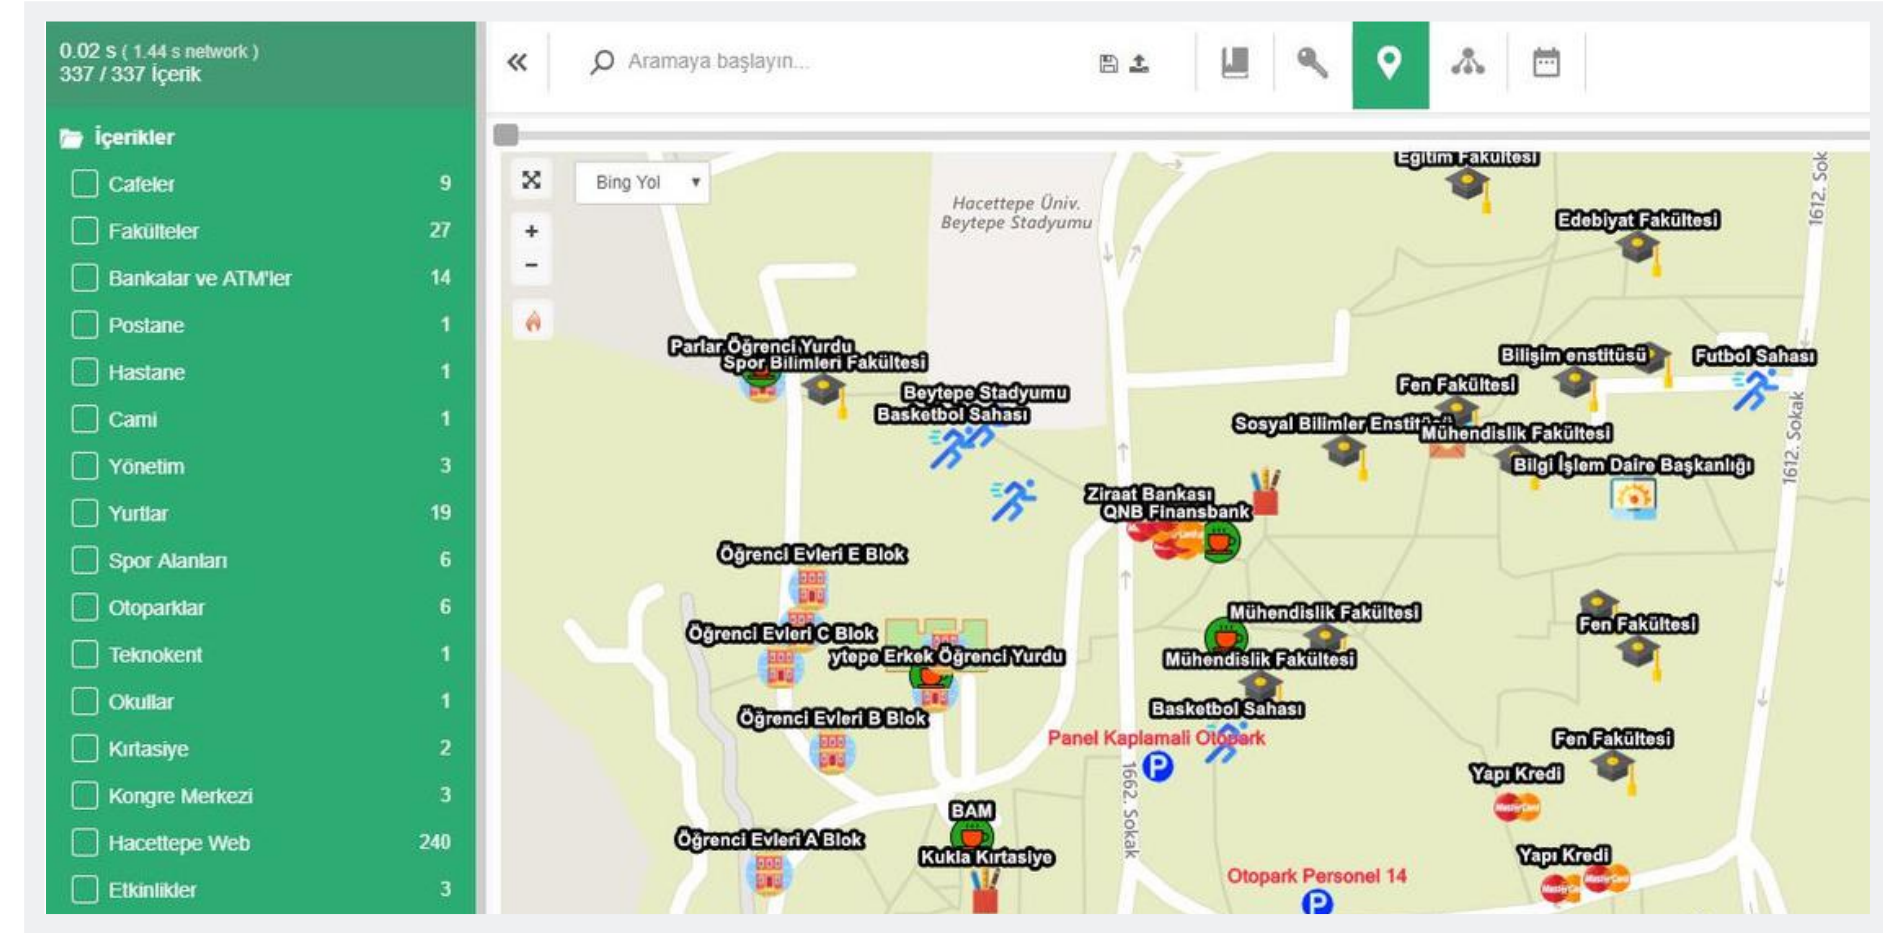

A single sustainable solution for students, academics, administrative staff, and visitors.

Use your existing data as it is, and get detailed search and map capabilities.

Courses, Places, Academic work, Dining halls, restaurant menus, cafes, banks, laboratories, service routes, events, clubs and more.

You will have access to all the information about the university and campus from a single point through artificial intelligence.

Whether in a comment or an academic work text, any spatial information will be used automatically.

What You Can Access?

Buildings

Faculties

Rectorate

Instructors

**Restaurants
and Cafes**

Dormitories

Sports Fields

Activities

ATMs
