

OLNEY TOWN COUNCIL

Trees

Dear Friends and Neighbours,

The Council has, for many months, been exploring how to best replace those trees lost around the Market Place over the years.

Olney Town Council are delighted to announce that on Monday 7th March, work will begin to plant 7 new trees. These will be native species (a mixture of Cherry and Whitebeam) and planting should be completed in about 3 days with, I am assured, very little disruption. Even better is that this will be at no cost to the town having been funded from a central grant.

Hopefully, come spring, we will see the first of the blossom that will bring so much pleasure to many for years to come.

Best Wishes,

Philip
