**Office Policy**

If at any time, you have questions or concerns with the quality of care you are receiving, please feel free to discuss your concerns with our administrator. As experienced specialists we will continually strive to provide you with individualized attention as well as attempt to satisfy your expectations and maximize your progress. Please be aware that we will accommodate your schedule on a “first come first serve basis”. We do ask that patients not currently working be flexible in scheduling in the appointments during the mid-morning and mid afternoon. This allows working patient’s access to morning, lunch and late afternoon appointments and minimizes their loss of work time. We understand that at times an illness or emergency may cause you to miss or cancel an appointment. However, because there are a large number of patients waiting to utilize our therapy services, missed appointments are unfair to these patients and are also detrimental to your care. If you are late for an appointment, we will make every attempt to complete your entire treatment; however, this may not be possible if there is a patient scheduled immediately after you. If you are more than 10 minutes late, we may need to reschedule your appointment. If you’re here as scheduled and we do not initiate your treatment on time, you will receive full treatment. Repeated cancellations and/or failure to comply with treatment will result in discontinuation of care.
