Experience

Student UX Designer | UWIT

October 2018 - Present

Seattle, WA

- Collaborated closely within the cross-functional team to design a web-based tool that helps the first-year college student with academic planning.
- Conducted user research on student motivations and their academic planning workflow.

UX Designer Intern | NAVER

June - August 2018

Seoul, Korea

- Led the experience and interaction design work in the intern team.
- Researched, ideated, designed, and prototyped end-to-end user experience for a new NAVER service app, RecDec.
Plan to be shipped this year.
- Collaborated closely within the cross-functional team to bring design solutions to NAVER customers.

UX Designer | Emerald City Pet Rescue

March - June 2018

Seattle, WA

- Conducted usability tests on the current ECPR website.
- Reconstructed information architecture through card sorting.
- Redesigned the whole website and created wireframes and interactive lo-fi & hi-fi prototypes.
- Iterated the redesigned prototypes regarding the usability tests results with stakeholders.

Architect Intern | Yuntashan Global Space Design

January - July 2017

Guiyang, China

- Conducted interviews to identify customer needs and provided design solutions.
- Produced 3D models, plans, sections, and final renderings for construction and visual presentation.
- Helped design and construct more than 10 clients' home interior.
