Richmond, CA

Summary

I strive for clean, semantic **HTML and SCSS**. I have **5 years of professional experience** writing code for **online retail**, specifically **Shopify**. I've worked both on **teams**, and **independently**, using modern **version control**. Using tools like **Sketch, Adobe XD, Photoshop, Webflow**, and **Framer** -- I still start each project with pen and paper. I work safely around **JavaScript, jQuery, React, and GraphQL**, but by no means consider myself a JavaScript developer or someone specialized in complex math, data structures, or Big-O. My self-taught approach to code is grounded in **UX, Flexbox, CSS Grid, HTML5, CSS3, SVGs** and **web animation**.

Experience

Grizzly & Poppy / Founder and Lead Shopify Developer

OCTOBER 2018 - PRESENT, REMOTE

Solopreneur of a startup design and development shop specializing in Shopify. I mainly partner with agencies as a UX Engineer and consultant.

ShopPad Inc / Frontend Web Developer

SEPTEMBER 2017 - OCTOBER 2018, OAKLAND, CA

Working on a development team, built custom Shopify Themes, coded Shopify App UIs and built custom HTML Emails for a Shopify Plus agency.

Ambry Genetics / Software Engineer (Frontend Web)

FEBRUARY 2016 - AUGUST 2017, ALISO VIEJO, CA

24-7 Talent, Inc. / Contract Shopify & WordPress Developer

FEBRUARY 2015 - SEPTEMBER 2015, ORANGE COUNTY, CA

Vitamin-T / Web Designer & Developer

JULY 2014 - JANUARY 2015, ORANGE COUNTY, CA

Young Company / Junior Web Programmer

APRIL 2014 - NOVEMBER 2014, LAGUNA BEACH CA

Extras

I have a **BA in Print Journalism and English** (2004) from **CSU Long Beach**. I first learned to code while blogging for **my school newspaper**. I built websites as a hobby, mainly for non-profits, from 2004-2012 while working in other industries. In 2012 I co-founded a company, marketing a product to health food stores. That business was acquired, and after that I decided to pursue **web development** full time. I am father to a **2-year-old boy** and a **newborn baby girl**.
