

It seems like a good year to remember a basic principle of divine guidance: God leads us one step at a time. Psalm 119:105 says, "Your word is a lamp to my feet and a light to my path"; He promises enough light for our next step even though we do not have a view of the whole path. Staff members added "steps" to the visual display near the school office and the "steps" will grow throughout the school year with families and students getting involved. This visual reminds the entire community that "[t]he mind of man plans his way, but the Lord directs his steps" (Proverbs 16:9). This is definitely a message that we all need to take to heart during these times of uncertainty and unpredictability.
