

## Skylar Zak

Consultant

Demonstratives

Evidence Photography

Video Production

Marketing

Skylar Zak is a part of Opveon's consulting team. She provides creative services in the form of graphics and demonstratives, slide decks, evidence photography, deposition videography, creation and editing of site inspection videos, video surveillance cameras, and drone footage, just to name a few.

Clients love Skylar's keen eye for detail and appreciate her ability to create compelling graphics that tell the client's story in a way that resonates with the fact finder. Not only are her graphics visually appealing, she is a master at explaining hard to understand concepts through graphical representations.

When not working with clients, Skylar brings the same skills she brings to clients, to the company's sales and marketing team. She works with Opveon's trial consultants and management team to create compelling presentations, marketing materials and videos, to showcase Opveon's creative brilliance and knack for communicating thoughts and ideas.

In Skylar's spare time, she enjoys spending time with her family, digital illustration, taking photos, and traveling.
