B. of Architecture, USC
Minor in Comp Sci, USC

Awards

USC Generation Next '19, USC
Ideo CoLab Fellow, Ideo
Innovation Award, USC
NSF Scholar, NSF
Presidential Scholar, USC

Experience

2.21—Now

Stripe
Product Designer

I delivered designs for commerce features that drive an additional $400k per month in revenue for Stripe Checkout merchants, as well as helped ship Payment Links, the fastest growing product in Stripe's history.

3.19—2.21

Kickstarter
Staff Product Designer

I Set strategy for the Platform Experience team that increased Kickstarter's revenue by 4% (+$2m per month) in 2 quarters. I led an innovation team that directly reported to the CEO to explore new shapes for the product, and also mentored junior designers.

5.17—3.19

Beyond
Senior Product Designer

I led end-to-end design and shipped products for high profile companies including Google, Paypal, Gap, and Wall Street Journal. I designed Google's most trafficked marketing page, the Test my Site tool, for which my work is still live today.

1.17—5.17

BCG Digital Ventures
Experience Designer

I innovated and incubated products with MetLife and One World Alliance. I was the sole designer on a 3 person team that pitched product concepts that clients signed contracts for that brought in $20m in revenue.

1.16—12.16

Amazon Audible
User Experience Designer

My 3 person team was responsible for the integration of Kindle and Audible. I worked with stakeholders for both Kindle and Audible to ship end-to-end user flows on web, Android, iOS, and e-Ink devices.

5.14—9.15

Gehry Technologies
Technology Consultant

I used 3d modeling and coding skills to help realize the complex and intricate designs of world-renowned architect Frank Gehry.
