

FOR IMMEDIATE RELEASE

**MEDIA RELEASE**  
**XINYI CANADA GLASS CONFIRMS CITY OF  
STRATFORD AS PREFERRED LOCATION**  
**Stratford Plant will be its first Canadian Manufacturing Facility**

Stratford, ON – October 29<sup>th</sup>, 2020 .... **Following a Province-wide site selection process, Xinyi Canada Glass has confirmed that it has selected Stratford as the preferred location for its first Canadian manufacturing facility.**

A potential development is being considered on lands at the southwest corner of Stratford near the Wright Business Park.

In February of this year, the municipal councils of the City of Stratford, the County of Perth and the Township of Perth South each approved boundary adjustments to include within the City certain lands previously located in the Township and County.

In July, the boundary adjustment was approved by the Minister of Municipal Affairs and Housing, and a Minister's Zoning Order was also applied to some of the lands.

The purpose of the boundary adjustment and Minister's Zoning Order was to create new opportunities for industrial development in the City.

In addition to Xinyi's proposed glass manufacturing facility, investStratford is actively pursuing other potential developments for the recently annexed lands.

To provide residents with more information about its proposed development, Xinyi Canada Glass is planning to host a public information session in a few weeks. Notification of this Public Information Session will be published shortly in the local media in Stratford.
