

CLEANFIX NORTH AMERICA INC. EXPANDING STRATFORD OPERATIONS

German Industrial Fan Manufacturer and Agritech Leader Doubles Investment in City of Stratford

Stratford, Ontario, Canada – July 7, 2022 . . . **Today investStratford announced that Hägele GmbH, the global manufacturer of Cleanfix Fans, will be expanding its North American operations located in the City of Stratford.** Pending final plans and approvals, the expansion of Cleanfix North America Inc. will begin in 2022 and more than double the total current building space. Established in the City of Stratford in 2010 as the North American subsidiary of Germany's Hägele GmbH, Cleanfix North America Inc. has since 2015 been located in the Wright Business Park, where it currently employs 20 persons who design, assemble and supply the company's proprietary fans for farm machinery and heavy equipment.

*"We are absolutely thrilled, sincerely proud and deeply honoured to be expanding our North American headquarters and full-service production operations on Wright Boulevard in Stratford," says **Benjamin Haegele, CEO of Hägele GmbH**, based in Schorndorf, Baden-Württemberg, Germany. "Establishing Cleanfix North America Inc. in the City of Stratford has been one of our biggest success stories anywhere in the world. Stratford's progressive business climate, improving amenities, prime location and world-class culture make it a tremendous place to invest, to work and to live."*

Cleanfix reversible fans are designed to provide the most efficient engine cooling and radiator cleaning available, in order to work flawlessly for equipment operating in the dustiest, dirtiest working conditions throughout the world. Globally recognized and used worldwide, the fans are used in a wide range of agricultural, waste and recycling, railway and construction, municipal and forestry machines , such as tractors, harvesters, sprayers, material handlers, excavators, trains, wheel loaders, dozers and skid steers.

DETAILS ABOUT THE EXPANSION: At 14,000 sq. ft. in total, the office and production facility currently employs about 20 persons for Cleanfix North America Inc., and also houses a long-standing tenant in the trucking industry. The planned expansion will add 20,000 sq. ft. and allow for additional Cleanfix component manufacturing and overall increased production, as well as the anticipation addition of employees both in production/manufacturing and throughout the company.

ADDITIONAL QUOTES:

Dan Mathieson, Mayor, City of Stratford *"It has been a pleasure watching Cleanfix Fans grow and succeed in the North American Market. Their success is shared by Stratford and this expansion is great news for both their company and our community."*

Joani Gerber, CEO, investStratford *"I'm thrilled that the Haegele Group has chosen to deepen their investment in Stratford. As market-leading agri-food innovator, Cleanfix Fans is a perfect fit for Stratford's family of global manufacturers."*

About Cleanfix Fans:

Cleanfix reversible fans are installed in a range of self-propelled equipment used in agriculture, construction, waste and recycling, forestry, and mining. These include tractors, harvesters, excavators, loaders and sprayers that, when equipped with Cleanfix Fans, achieve maximum productivity and significant fuel savings with their maintenance-free, automatic radiator cleaning. Under the innovative Cleanfix design, the fan's blades rotate through the cross position. This ensures that not only the machine's grille is cleaned off, but also the actual cooler. The powerful "sneezing" effect is required to effectively blow out the dust, dirt and debris that can quickly build up in these machines. Learn more at www.cleanfix.org
