

Verse 1

In my distress I call upon the Lord  
And He hears my voice  
And He hears my voice  
The earth shakes and the mountains they bow before the King  
And He hears my voice  
And He hears my voice

Pre-Chorus

When we press into His Presence  
We find our healing and we find our victory  
When we press into His Presence  
We find our healing and we find our victory

Verse 2

He rides the heavens strongholds fall beneath His feet  
And He fights for me  
And He fights for me  
His voice it thunders as He commands the darkness to leave  
And He fights for me  
And He fights for me

Pre-Chorus

When we press into His Presence  
We find our healing and we find our victory  
When we press into His Presence  
We find our healing and we find our victory

Chorus x2

When we press in, into His Presence  
We will see our healing, hear the sound of victory  
There is no shadow that can stand in His glory  
We know that our breakthrough is waiting on the other side

Bridge x3

When we worship walls crumble down and chains break  
When we worship mountains are thrown to the sea  
When we worship walls crumble down and chains break  
When we worship mountains are thrown to the sea

Chorus x3

When we press in, into His Presence  
We will see our healing, hear the sound of victory

There is no shadow that can stand in His glory  
We know that our breakthrough is waiting on the other side

### **The Outcome Reprise**

Bridge x3

When we worship walls crumble down and chains break

When we worship mountains are thrown to the sea

When we worship walls crumble down and chains break

When we worship mountains are thrown to the sea
