

INTRODUCTION

As the market has become more turbulent, High Net Worth clients are increasingly more demanding and cautious.

To support clients in taking advantage of current market conditions and adding value to their portfolio, Landmass has set up a Private Office to cater for High Net Worth Individual's property needs.

Landmass Private Office provides an individual tailored approach through a single point of contact and helps its private clients in three ways.

ARCHITECTURE & INTERIOR DESIGN

Improving existing homes through enhanced space planning and maximising the light.

BESPOKE RESIDENCE SOURCING

Saving our private clients time and money on sourcing their new home and design it uniquely to their taste.

CAPITAL PRESERVATION

Helping to safeguard private clients assets by building a logical property portfolio with their capital preservation in mind.

OUR SERVICES DETAIL

ARCHITECTURE & INTERIOR DESIGN

Clients want perfection as they perceive it. Landmass Architecture & Interior Design can achieve just that.

We are committed to creating timeless design:

Our design solutions compliment their context and the end user's identity and create unique properties. Our design team has a renowned reputation for turning the negative into the positive. Our 'Volumetric Design' creates maximisation of space and light through the most appropriate space planning.

BESPOKE RESIDENCE SOURCING

Clients demand flexibility and value for money.

Landmass's **Bespoke Residence Sourcing** service will source only dilapidated residential properties and add value to them.

Incorporating lower acquisition price with stamp duty savings and the use of our in house award winning design and build service, clients can save between 10%-20% overall, compared to purchasing the same property as a finished product from the market. We are the only multidisciplinary real estate company that offers an exclusive unmodernised property sourcing service.

OUR SERVICES DETAIL

CAPITAL PRESERVATION

Real estate provides a mechanism to pass on wealth through generations. Landmass can build a profitable portfolio of rental investments in Prime Locations.

London has always and continues to offer an economic and political safe haven for international buyers, a stark contrast to many cities globally.

Landmass secures an underperforming asset with development potential for conversion into Ultra Prime Residential apartments, providing for the following:

- ◆ An ideal mechanism to store value with an exceptional opportunity of long-term capital appreciation
- ◆ Capital appreciation is targeted at 40% after year 10 with rental yields in excess of 2.5%
- ◆ Option to reserve one or more units for family use
- ◆ Ownership of a 'global status trophy asset'

SUMMARY

One of Landmass most ambitious projects to date.

Landmass turned a small, dilapidated building into a stunningly modern home. As ever, light and space were at the heart of this double-basement project, with inventive use of glass and floor plate configurations.

An “Al Fresco” dining space was created to blur the boundaries between outside and in and a magnificent architectural staircase ensures that natural light can permeate the entire property.

SUMMARY

PROPERTY: This unmodernised 2,333 sq ft three-bedroom flat on the fourth floor of Upper Grosvenor Street (Mayfair) is being marketed for £5,500,000.00.

PURCHASE PRICE: The analysis of transactions in the area for comparable properties shows that a discounted price of £4,950,000.00 would be likely achieved.

REFURBISHMENT COSTS: Refurbishment costs are dependent upon the size of the property, the location, the type of works required and the level of specification. Assuming high specification for the internal refurbishment and decoration, the costs inclusive of professional fees are projected at approximately £1,938,263.00.

SALE PRICE: The analysis of the capital values in the area shows that properties in good conditions have been sold between 3,000.00 £/sq ft to 4,000.00 £/sq ft. Considering that the property will be newly refurbished to a high specification, we estimate the sale price at 3,800.00 £/sq ft for a total Gross Development Value of £8,935,000.00 (inclusive of furniture sale).

RESULTS: The project will deliver a brand new bespoke residence, ensuring the owners a saving of 20.83% in comparison to acquiring an already developed finished home.

DEVELOPMENT COSTS: This project will entail demolition and construction; it assumes high specification for the interior design and decoration, hence the costs inclusive of professional fees are projected at approximately. £9,088,100.00.

VALUES FORECAST: Future values are highly dependent on the outcome of Brexit negotiations and research shows that a bounce in values is expected when clarity on the political situation is obtained. The values here used are obtained by averaging the forecasts from three leading consultancies (JLL, Knight Frank, Savills). We assumed Capital and Rental Growth starting in 2019 until 2022 and a steady growth therein.

RESULTS: It is possible to see that both the value of the property and the income stream received will grow over time. In ten years, the capital value will increase to £38,410,432 (+41.47%) and the rental income will increase to £910,802 (+27.15%) .
