

# FUM 2019 Summer Mission Project

## “Everyone Welcome”

In 1869, Friends from New England began opening schools for girls in the Ramallah region, as, previously, no local school admitted girls. Today, Ramallah Friends School is co-educational and continues to be a leader in Palestinian education. The School’s commitment to inclusion leads to educating children with a wide spectrum of physical and learning difficulties.

This summer, help us fund capital improvements to make the school’s facilities more accessible for all.

**“Reflecting Quaker values, inclusive schools help the development of communities where all people are equally valued and have the same opportunities for participation.”**

*—Adrian Moody, Head of School*
