

LOGIMATIQ is a fully automated asset management system offering endless storage capabilities and software implementation options. This unique patented product permits multiple configurations by selecting any combination of storage compartments and bin sizes to control and manage your inventory.

" You can't Steal or Duplicate what you can't See and Touch!
Our Mission: One Asset per Log-In

With 20 years' experience and thousands of systems installed worldwide, LOGIMATIQ designs and produces these technological systems under the strict quality assurance procedures of ISO Standard 9001 and Aerospace Standard AS9100.

Multiple Standard Built-In Software

PROTECTUS

PROTECTUS is a software specifically designed for Security Companies. When combined with our storage cabinet, it offers secure storage of weapons, ammunition, patrol equipment, keys, phones and other items. The access to each item is fully secured inside a sealed compartment and every operation is captured by video camera.

Secure storage of valuable items

Determine who has access to each item

Automated documentation of every transaction

Receive alert when item is not returned on time

50 different sized bins to choose from

KEYLOCK

Secure and manage the access to your properties

KEYLOCK is a software specifically designed for Key Control. When combined with our storage cabinet, it offers security and full control of your keys. Now you can decide who has access to each key and receive real-time information regarding who took what, when and for which purpose.

KEYLOCK offers the maximum level of security as each key is secured inside a sealed compartment and every operation is captured by video camera.

Ideal for Car Dealers, Fleet, Property Mgt, Schools, Hospitals, Hotels ...

MYSPACE

Automated self deposit system for personal belongings

With **MYSPACE** software, our Logimatiq storage cabinet functions as a personal locker and allows users to store personal items such as phones, cameras, USB, jewelry, forensics, mail, documents, medication, etc. items in a secure way.

Ideal for Gyms, Embassy's, Schools, Attorney Offices, Hospitals, Valet Parking ...
