### Tamper Proof Key Rings

Affordable key rings that are made of quality aircraft cable and show any signs of attempts to open them. To lock a key ring, crimp the metal connector with a crimping tool to permanently close it. After which point the ring will have to be destroyed for the keys to be removed 2" diameter

Special Package of 25 Key Rings

Special Tamper Proof  
Key Ring Crimping Tool

**Never Lose Track of Your Vehicle Keys Again!**

A smarter way to keep track of vehicle keys. The **innovative** key systems comes ready to use. Simply snap keys together on a locking strap with an ID tag and place into keyboard. Keys can only be removed with an access key. Once an access key is used to release the vehicle keys the access key cannot be removed until the vehicle keys are placed back into the board. Assign access keys to sales staff and service people. You'll always know who has the vehicle keys by looking at the personalized access key. A master key provided with each system will remove all keys without remaining in the board so that all vehicles can be removed from the lot for snow plowing, sales etc. available with or without locking steel cabinets. The **innovative** key system wall boards and cabinets are built from textured powder coated aluminum making them easy to mount, inexpensive to ship and easy to maintain.

## Secure Solutions for Car Dealerships

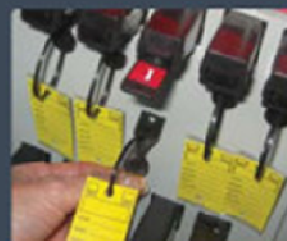

Insert the Access Key

To release vehicle keys

Access Key remains while vehicle keys are checked out

Returning the vehicle keys releases the Access Key
