

**Dear All**

By chance, I discovered over the weekend that LIÿr Williams, one of the Gower Festival Patrons, has recorded **all 32 Beethoven Sonatas** as part of a festival at which he was supposed to be performing in Mexico this summer. He was unable to go to Mexico due to Covid-19, but was asked instead to record them on video. These are available to watch on [www.festivaldemayo.org](http://www.festivaldemayo.org) but my understanding is that they are only available until 26th July when the Mexican festival was due to finish.

When you go to the website there are 8 videos to watch all lasting about an hour or more, so you could have your own Festival for just over a week by watching one a day if you wish to. I have only watched the first one so far but really enjoyed it.

At the top of the Mexican Festival web page, there is a big box with a picture of LIÿr. At the bottom right of the box there are the words 'click aqui'. If you press there you will get to the 8 videos.

I hope you enjoy watching LIÿr perform and that it brings back happy memories of Gower Festivals past and creates dreams for Gower Festivals to come.

Best wishes

Anne
