

COLOURPANEL

ColourPanel is made from pre-finished steel, as commonly used for roofing, and is durable and stable. It will not warp and twist even when a dark colour is used in any climate.

For great-looking, low-maintenance privacy fencing, ColourPanel sets the standard throughout New Zealand.

About ColourPanel

- Same-both-sides fence
- Low maintenance privacy fencing
- Quick and simple installation
- Colour-matched component
- No painting, no staining
