

Criminal Justice Reform District Attorney Questionnaire

District Attorney Name: Jack Daneri

Special message from DA Daneri:

Thank you for sending to my attention the information I requested. Having reviewed same, I am declining to complete the questionnaire. While I recognize SmartJustice is focused on some appropriate issues for discussion, the information I reviewed, as a whole, seems to negate discussion, instead proffering statements as foregone conclusions. e.g. “prosecutors seek convictions, not justice.” I therefore fear responses to the questionnaire which do not buttress SJ’s positions will be treated as anomalies.

Nevertheless, please visit/Google the following for some insight on the manner in which I serve the people of Erie County:

- UnifiedErie.org
- ECRSSA (Erie County Reentry Services and Support Alliance)
- Erie Blue Coats
- Erie NRO (Neighborhood Resource Organization)
- CPRG (Community Police Relations Group)
- SPCP (Strengthening Police Community Relations)
- Erie County Treatment Court

- **Erie County Heroin Task Force**

Cash Bail

About 60 percent of county inmates in Pennsylvania are held pretrial^[1]. A large portion of those people jailed pretrial are incarcerated because they can't afford cash bail^[2]. Does your office routinely request monetary conditions of bail? In which percentage of cases does your office request cash bail?

What factors determine whether your office will ask for a monetary bail versus a nonmonetary bail?

Are risk assessment tools used in your county to make bail recommendations?

Prosecutorial Transparency

It is important for prosecutors, as elected officials, to be transparent in their policies and practices. What kind of data does your office currently collect and make public?

Would you agree to make all policies of the district attorney publicly available on your office's website, including those regarding charging and plea-bargaining decisions? Would you further agree to post quarterly data regarding all critical decisions made by the district attorney's office, encompassing charging, pretrial recommendations, plea bargains and sentencing recommendations, including demographic information?

Does your office have an open-file discovery policy; does your office allow the defense full access to the prosecutor's file both pretrial and after conviction?

Mandatory Minimums

In 2015, the Pennsylvania Supreme Court found most of Pennsylvania's mandatory minimum sentencing laws unconstitutional. There is a bill in the General Assembly that would reinstate the mandatory minimums invalidated by the court in 2015. Do you support bringing back those mandatory minimum sentencing laws? Why or why not?

Police Accountability

Some prosecutors keep a list of current and former police officers who have been determined to have a history of lying, racial bias, or brutality. Would you be willing to publicly produce a list of police officers for whom the District Attorney's Office (DAO) has evidence of dishonesty, excessive force, or racial bias?

What does your office do when you receive information that a police officer has engaged in criminal activity such as perjury, assault, or other unlawful conduct?

Probation Detainers

Does your office engage in the practice of asking judges to lodge a detainer against defendants for technical violations of probation?

Does your office request that detainers be lodged against defendants for direct violations of probation as a result of new charges?

Reentry

What, if anything, can your office do, or is your office currently doing, to help those who are in reentry?

Do you think DAs around the state should play a role in assisting people who have served their time successfully reintegrate into society when they come home?

Diversions Programs

What kinds of diversionary programs are available in your county? Would you consider expanding these?

Do people using these programs have to pay to participate? If so, what is the amount?

Opioid Crisis

Do you support a public health-centered approach to substance use and addiction that emphasizes decriminalization and harm reduction, increases access to treatment, and does not involve prosecution for drug possession? If yes, what specific strategies do you currently use? What other strategies would you support, both inside and outside the criminal justice system, to implement that approach?

Mental Health Treatment

Do you support the idea of diverting defendants with mental health issues away from the criminal justice system and into treatment and support services in the community? What programs currently exist in your county?

Mass Incarceration

Pennsylvania has the highest rate of incarceration of any state in the Northeast.^[3] Do you think that mass incarceration is a problem in the US? In Pennsylvania? If so, what do you think can be done?

What do you think are the causes of Pennsylvania's exceptionally high incarceration rate?

Racial Disparities

Black men are almost nine times more likely to be incarcerated than white men in Pennsylvania are.^[4] This is higher than the national average of six times. What do you think accounts for this racial disparity in incarceration? What can your office do to help address this?

Immigrants and the Criminal Justice System

Does your office take immigration status into consideration when making charging decisions, deciding to offer a plea bargain, or making sentencing recommendations? If so, how? Is this documented?

Are there circumstances under which your office shares information about defendants, victims, or witnesses with immigration authorities? What are those circumstances, and what information is shared?

Does your office have a position on immigration enforcement within or near courthouses? If so, what is that position?

Schools and Policing

Does your office support and promote alternatives to arrest for school-related incidents in which there is no serious physical harm or threat to the school community? In such incidents, does your office discourage police from making these referrals?

Life Without Parole

There are more than 5,000 people in Pennsylvania currently serving sentences of life without parole (LWOP).^[5] Pennsylvania is one of only six states that denies parole to lifers. Do you believe there are circumstances in which a person sentenced to life imprisonment should have the opportunity to be paroled? If so, in what circumstances do you believe that opportunity should be granted?

Would you support a change in the law allowing those sentenced to life to have an opportunity for parole?

Death Penalty

Under what circumstances do you seek the death penalty? Do you use a set of criteria to determine whether or not you will pursue a death sentence?
