Webflow  
GitHub

## CERTIFICATIONS

**Certified Agile ScrumMaster**

Scrum Alliance  
License 764422

## DESIGN PROJECTS

### LinkedIn Feed Card

- Created updated concepts for redesigning the "Open to work/hiring/career guidance/freelance" homepage feed cards.
- Took feedback from four other teams to ensure that the design was flexible enough to meet all of their needs.

### LinkedIn Documentation Imagery

- Worked on LinkedIn's Design Systems team to create component documentation imagery for all of LinkedIn's designers to refer.
- Proposed several creative theme options for an image style that could generically convey design system rules.
- Created images for 35 total components demonstrating correct and incorrect usages for each one.

## WORK EXPERIENCE

### UX Designer, LinkedIn

Feb. 2020 - Aug. 2020

Remote (Contract)

- Designed the generic wireframe style for design system documentation and created extensive component documentation imagery.
- Created concepts for the redesign of a homepage feed card type.
- Drafted detailed specs for new LinkedIn Stories features including details for UX flow, accessibility, animation, spacing, and sizing.
- Created reusable components for homepage modules.

### UI/UX Designer, Adventure Aide

Feb. 2019 - Aug. 2019

Remote

- Designed detailed mockups and prototypes for high-profile features.
- Created and implemented basic design system for team to follow.
- Worked closely with web, iOS, and Android app developers during their implementation of designs.

### UI Designer, iFixit

Oct. 2018 - Jan. 2019

San Luis Obispo, CA

- Created mockups for new large site features.
- Worked closely with software developers during the implementation phase.

## EDUCATION

### California Polytechnic State University

Dec. 2016

B.S. Degree in Computer Science  
San Luis Obispo, CA
