

## Elevia A/R Management & Collections for Deltek Vision®

### COLLECT FASTER COLLECT SMARTER

Your largest single asset is usually your accounts receivable, yet collecting aged receivables is often overlooked as a key way to improve financial performance. Now there's an easy way to accelerate collections to increase available cash and reduce your carrying costs. EleVia A/R Management & Collections software automates the collections process and gives you greater insight into A/R performance.

#### SET STRATEGY TO ESCALATE COMMUNICATIONS

This add-on software for Deltek Vision makes it easy to set a collections strategy for your various A/R segments. For example, you can set up a series of communications that escalate based on number of days past due.

#### AUTOMATE THE PROCESS WITH ALERTS

Based on your strategy, EleVia A/R Management & Collections software notifies your assigned collections participants — whether it's accounting clerks or project managers — when scheduled actions are due.

#### INCREASE EFFICIENCY WITH CONSISTENT COMMUNICATIONS

The software also lets you standardize client Collections messages to increase efficiency and create a more consistent brand image. It automatically creates emails and Word documents that incorporate information from your Client and Project data — using templates you design.

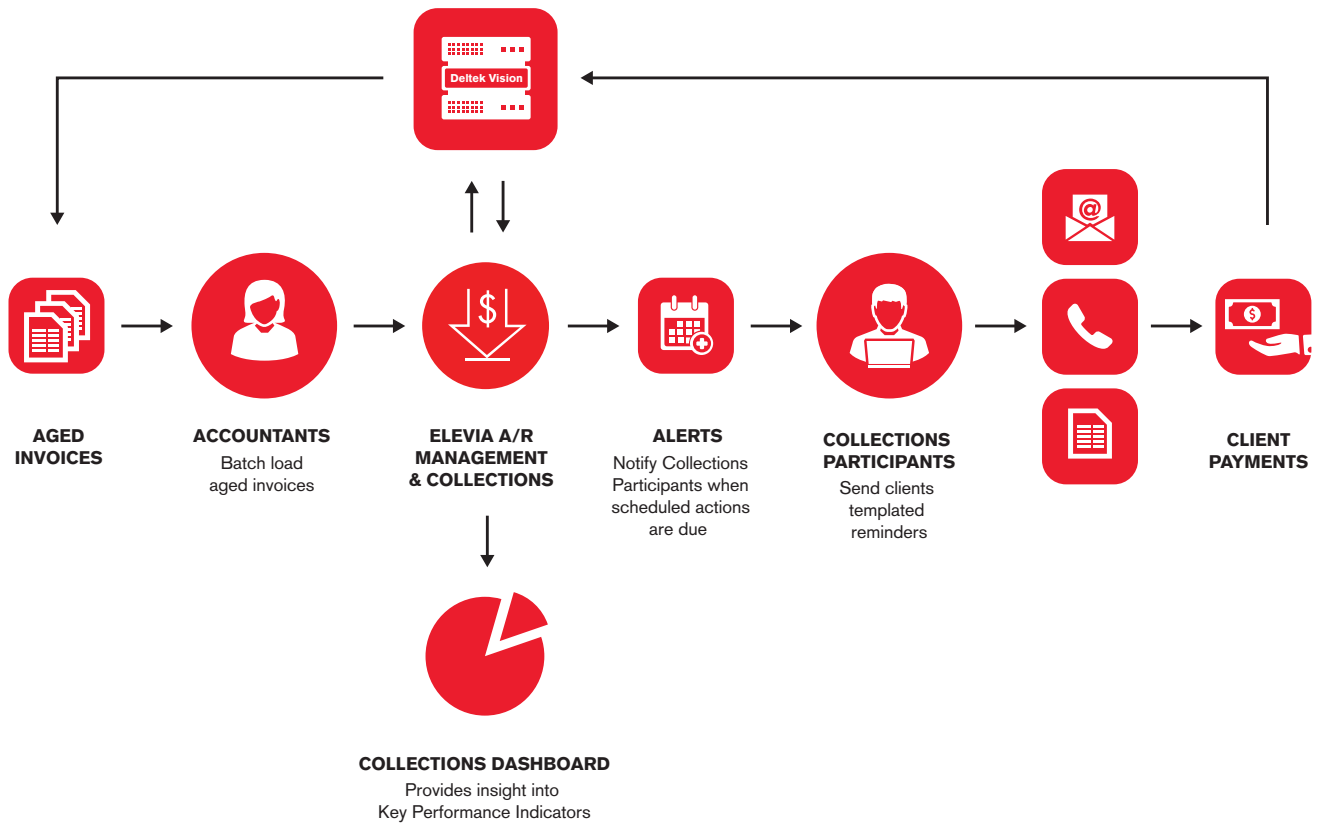

#### GAIN PERFORMANCE INSIGHT

EleVia A/R Management & Collections features a powerful performance dashboard that's customizable, so you can quickly see your key performance indicators — whether that's Days Sales Outstanding (DSO), Weighted Average Days Late (WADL) or some other metrics. Armed with this insight, you can develop more effective Collections strategies and easily measure your progress.

# GET MORE VALUE FROM YOUR DELTEK VISION INVESTMENT

EleVia A/R Management & Collections helps you extend the power of Deltek Vision. We designed it specifically as a Vision add-on product, so it integrates seamlessly and is intuitive for users. That means you can start leveraging the added functionality right away — for greater efficiency and financial visibility.

## HOW ELEVIA A/R MANAGEMENT & COLLECTIONS WORKS

## About EleVia Software
